

# British Heart Journal

|   |     |  |     |
|---|-----|--|-----|
| Unusual response of demand pacemakers to magnets <i>S. S. Barold, J. J. Gaidula, and R. Castillo</i>  | 353 | Static exercise in untreated systemic hypertension <i>D. J. Ewing, J. B. Irving, F. Kerr, and B. J. Kirby</i>  | 413 |
| Long-term prognosis after cardiac pacing in atrioventricular block <i>M. M. Zion, P. E. Marchand, and I. W. P. Obel</i>   | 359 | Haemodynamic responses to isometric exercise (handgrip) in patients with heart disease <i>M. L. Fisher, D. O. Nutter, W. Jacobs, and R. C. Schlant</i>                     | 422 |
| Supernormal phase of AV conduction. A study during heart block and endocardial pacing <i>David O. Williams</i>  | 365 | Four faces of acute myopericarditis <i>Austen J. S. Gardiner and David Short</i>   | 433 |
| Prolonged PR interval and coronary artery disease <i>H. B. Calleja and M. X. Guerrero</i>   | 372 | Congenital discrete subvalvar aortic stenosis. Surgical experience and long-term follow-up in 20 paediatric patients <i>G. Champsaur, G. A. Trusler, and W. T. Mustard</i> | 443 |
| Safety of coronary arteriography <i>M. C. Petch, R. Sutton, and K. E. Jefferson</i>   | 377 | Late results of percutaneous retrograde femoral arterial catheterization in children <i>R. E. Hawker, Judy Palmer, R. G. Bury, J. D. Bowdler, and J. M. Celermajer</i>     | 447 |
| Prevalence of three cardinal risk factors in a random sample of men and in patients with ischaemic heart disease <i>T. B. S. Dick and M. C. Stone</i>                   | 381 | Role of central blood volume in hyperkinetic borderline hypertension <i>Charles N. Ellis and Stevo Julius</i>  | 450 |
| Comparison of pulmonary artery and pulmonary venous wedge pressure in congenital heart disease <i>Richard E. Hawker and John M. Celermajer</i>                          | 386 | Use of amiloride as a potassium conserving agent in severe cardiac disease <i>C. Davidson and I. M. Gillebrand</i>   | 456 |
| Revision of Gorlin constant for calculation of mitral valve area from left heart pressures <i>K. E. Hammermeister, J. A. Murray, and J. R. Blackmon</i>                 | 392 | Sixth European Congress of Cardiology  | 462 |
| Haemodynamic explanation of why the murmur of mitral regurgitation is independent of cycle length <i>J. S. Karliner, R. A. O'Rourke, D. J. Kearney, and R. Shabetai</i> | 397 | Case reports   |     |
| Genesis, frequency, and diagnostic significance of ejection sound in adults with tetralogy of Fallot <i>C. E. Martin, P. S. Reddy, D. F. Leon, and J. A. Shaver</i>     | 402 | Left atrial tamponade. Report of a case after right heart catheterization <i>P. H. Kidner, V. V. Kakkar, P. A. Cullum, and P. Armstrong</i>                                | 464 |
|   |     | Haemochromatosis presenting as congestive cardiomyopathy and responding to venesection <i>C. Skinner and A. C. F. Kenmure</i>  | 466 |
