

March 1979 Vol 41 No 3

*A monthly journal of cardiology
published in association with
the British Cardiac Society*

British Heart Journal

Editorial: Thyroid heart disease *Cecil Symons*Anatomy of left ventricular outflow tract
*Robert Walmsley*Coarctation, tubular hypoplasia, and the
ductus arteriosus. Histological study of 35
specimens *S. Yen Ho and Robert H. Anderson*Developmental anatomy of the membranous
part of the ventricular septum in the human
heart *S. P. Allwork and R. H. Anderson*Morphological variations in pulmonary atresia
with intact ventricular septum *James R.
Zuberbuhler and Robert H. Anderson*Conduction disturbances after surgical
correction of ventricular septal defect by the
atrial approach *Susan M. Hobbins, Teruo
Izukawa, Dorothy J. Radford, William G.
Williams, and George A. Trusler*Open heart surgery in first year of life using
profound hypothermia (core cooling) and
circulatory arrest. Experience with 134
consecutive cases *Giuseppe Di Eusanio,
Sadhan C. Ray, Raymond J. Donnelly, and
David I. Hamilton*Poor response to oral indomethacin therapy
for persistent ductus arteriosus in very low
birthweight infants *Richard W. I. Cooke and
Douglas Pickering*Failure of indomethacin to close persistent
ductus arteriosus in infants weighing under
1000 grams *Hallam H. Ivey, John Kattwinkel,
Tong S. Park, and L. Jerome Krovetz*Arterial counterpulsation in severe refractory
heart failure complicating acute myocardial
infarction *Michael F. O'Rourke, Neville
Sammel, and Victor P. Chang*

257	Comparative haemodynamic and peripheral vasodilator effects of oral and chewable isosorbide dinitrate in patients with refractory congestive cardiac failure <i>Jaime Figueras, William R. Taylor, Takeshi Ogawa, James S. Forrester, Bramah N. Singh, and H. J. C. Swan</i>	317
263		
268	Study of left ventricular pressure-volume relations during nitroprusside infusion in human subjects without coronary artery disease <i>J. P. Merillon, G. Motte, M. C. Aumont, R. Prasquier, and R. Gourgon</i>	325
275		
281	Blockade of cardiac and renal beta-receptors by low dose propranolol in normal subjects. Clues to its antihypertensive effect <i>Roy Davies, Thomas G. Pickering, Alberto Morganti, Maxim Wilson, and John H. Laragh</i>	331
289	Uptake of catecholamines by human cardiac muscle in vitro <i>M. C. Petch and W. G. Nayler</i>	336
	Concentration of catecholamines in human cardiac muscle <i>M. C. Petch and W. G. Nayler</i>	340
294	Nongenetically transmitted disproportionate ventricular septal thickening associated with left ventricular outflow obstruction <i>Barry J. Maron, John S. Gottdiener, William C. Roberts, William J. Hammer, and Stephen E. Epstein</i>	345
301	Case reports Atrial infarction leading to rupture <i>N. Cristal, I. Peterburg, and I. Inbar-Yanai</i>	350
304	Pulsus alternans induced by glyceryl trinitrate paste in a patient with alcoholic cardiomyopathy <i>P. A. N. Chandraratna, E. Langevin, and J. Langevin</i>	354
