

*A monthly journal of cardiology  
published in association with  
the British Cardiac Society*

# British Heart Journal

Aggregation of coronary risk factors in families of men with fatal and non-fatal coronary heart disease *Aila M. Rissanen and Esko A. Nikkilä*

Randomised multicentre trial of early mobilisation after uncomplicated myocardial infarction *Robert R. West and Andrew H. Henderson*

Effect of coronary care on myocardial infarct mortality *B. L. Chapman*

Angina in cold environment. Reactions to exercise *Claes T. Lassvik and Nils-Holger Areskog*

Haemodynamic and electrocardiographic accompaniments of resting postprandial angina *J. Figueras, B. N. Singh, W. Ganz, and H. J. C. Swan*

Exercise testing in men with significant left main coronary disease *J. V. Nixon, K. Lipscomb, C. G. Blomqvist, and William Shapiro*

Projection of electrocardiographic signs in praecordial maps after exercise in patients with ischaemic heart disease *K. M. Fox, A. P. Selwyn, and J. P. Shillingford*

Vasomotor responses to the Valsalva manoeuvre in normal subjects and in patients with diabetes mellitus *T. Bennett, D. J. Hosking, and J. R. Hampton*

Intracardiac right-to-left shunts demonstrated by two-dimensional echocardiography after peripheral vein injection *P. W. Seruys, M. van den Brand, P. G. Hugenholtz, and J. Roelandt*

Effect of ventricular function on left ventricular ejection time in aortic stenosis *Paul Kligfield and Peter Okin*

Syndrome of valvular pulmonary stenosis and valvular aortic stenosis with atrial septal defect *R. J. Shemin, K. M. Kent, and W. C. Roberts*

Evaluation of combined homograft replacement of aortic valve and coronary bypass grafting in patients with aortic stenosis *R. Thompson, M. Ahmed, C. Ilsley, R. Seabra-Gomes, A. Rickards, and M. Yacoub*

Thallium-201 myocardial imaging in assessment of results of aortocoronary bypass surgery *P. S. Robinson, B. T. Williams, M. M. Webb-Peploe, A. Crowther, and D. J. Coltar*

Multilevel block in the atrioventricular node during atrial tachycardia and flutter alternating with Wenckebach phenomenon *R. Slama, J. F. Leclercq, M. Rosengarten, Ph. Coumel, and Y. Bouvrain*

Free adrenaline and noradrenaline excretion related to occupational stress *M. Timio, Simonetta Gentili, and Sergio Pede*

Extracardiac defects in children with congenital heart disease *F. Jaiyesimi and A. U. Antia*

## Case reports

Renal artery stenosis with severe hypertension. A rare case with detailed assessment of renin-angiotensin system before and after development of lesion *A. Mackay and A. M. M. Cumming*

Transposition of the great arteries associated with a double left ventricular outflow tract *R. H. Kinsley, S. E. Levin, and T. G. O'Donovan*

Superior vena cava stenosis at site of intersection of two pacing electrodes *Marina Pauletti, R. Pingitore, and C. Contini*

Usefulness of Valsalva manoeuvre and cold pressor test for evaluation of arrhythmias in long QT syndrome *S. A. Rubin, B. Brundage, W. Mayer, and K. Chatterjee*
