Foreword	Interventional cardiology <i>M Norrell, M de Belder</i>	1
Pills, balloon or the knife	Pills, balloons or the knife: a review of the trials <i>A S Kurbaan, T J Bonker, A F Rickards</i>	2
	What the randomised trials don't tell us about the shortcomings of CABG <i>S Westaby</i>	5
	A US perspective on the shortcomings of PTCA <i>S B King III</i>	6
Cost-effectiveness	Cost-effectiveness of coronary interventions <i>D J Cohen, C A Sukin</i>	7
	Is a US analysis of cost-effectiveness in interventional cardiology relevant to a centrally funded health care system? <i>D C Cumberland</i>	10
Primary angioplasty	Angioplasty for the treatment of acute myocardial infarction <i>K J Beatt, F Fath-Ordoubadi</i>	12
	Is primary angioplasty feasible or will we provide a two-tier service? <i>P Chatelain, P Urban</i>	15
	Primary PTCA in the UK: if not for all, then for whom? <i>N Brooks</i>	16
Stenting	Who needs a stent? <i>S W Davies</i>	17
	Coronary stenting: current and future trends <i>E J Perrins</i>	19
	Lesions I don't stent <i>C A Layton</i>	20
	Antithrombotic therapy with intracoronary stenting <i>S R Steinhubl, A M Lincoff</i>	21
	Antiplatelet therapy following stent deployment <i>A H Gersblich</i>	24
Intravascular ultrasound	Is intravascular ultrasound clinically useful or is it just a research tool? <i>A Abizaid, G S Mintz, A D Pichard, K M Kent, L F Satler, J J Popma, M B Leon</i>	27
	Do we have enough evidence to insist we have IVUS? <i>I R Starkey</i>	30
Directional atherectomy	What is the use of directional atherectomy, now we have stents? <i>A Colombo</i>	31
	If directional coronary atherectomy is useful then why is it not used more often? <i>M Khan</i>	33
Rotational atherectomy	Is rotational atherectomy here to stay? <i>P L Whitlow</i>	35
	If Rotablator is useful, why don't we use it? <i>D R Ramsdale, J L Morris</i>	36
