Contents

Heartbeat
1473  Heartbeat: Virtual histopathology after myocardial infarction
C M Otto

Editorials
1475  Enlarged left atrium, atrial fibrillation and adverse outcome in hypertrophic cardiomyopathy: is there a difference between apical and non-apical phenotype?
Y Minami, N Hagwara

1477  Bicuspid aortic valves and intracranial aneurysms: more than an incidental coexistence?
E Girdauskas

1479  Visualising inflammation after myocardial infarction with the use of iron oxide nanoparticles
A Yilma

Reviews
1481  The role and clinical implications of diastolic dysfunction in aortic stenosis
P N Kampalesis, D C Kokkinidis, S-C Wong, M Vavarauskas, N J Skoukas, R B Devereaux

1488  Carcinoid heart disease
S A Hassan, J Batchs, C Iliescu, A Dasari, J Lopez-Mattei, S W Yassuf

Arrhythmias and sudden death
1496  Impact of atrial fibrillation on the clinical course of apical hypertrophic cardiomyopathy
S-E Lee, J-K Park, J-S Uhm, J Y Kim, H-N Pak, M-H Lee, B Joung

1502  The treatment of paroxysmal atrial fibrillation in UK primary care
A Isew, N J Adderley, R Ryan, D Fitzmaurice, T Marshall

Aortic and vascular disease
1508  Prevalence and predictors of intracranial aneurysms in patients with bicuspid aortic valve
A C Egge, R Padang, R D Brown, A R Khan, S A Luis, J Huston, E Akintoye, H M Connolly

Coronary artery disease
1515  Long-term mortality and prehospital tirofiban treatment in patients with ST elevation myocardial infarction
E Fabris, S Kilic, D A A M Schellings, J M ten Berg, M W Kennedy, K G van Haevelingen, E Giammarisi, E Koliman, J P Oosterwanger, C Hamon, A W J van ’t Hof

1521  Effect of interleukin-6 inhibition on coronary microvascular and endothelial function in myocardial infarction
E Holte, O Kleveland, T Ueland, G Kunst, M Bradte, K Broch, A E Michelsen, B Benáž, B H Amundsen, S Aakhus, J K Damás, I Gullestad, P Aukrust, R Wiseth

Special populations
1528  Ferumoxytol-enhanced magnetic resonance imaging assessing inflammation after myocardial infarction

Pulmonary vascular disease
1536  Cardiovascular outcomes with an inhaled beta2-agonist/corticosteroid in patients with COPD at high cardiovascular risk
R D Brook, J A Anderson, P M A Calverley, B R Celli, C Crn, M A Derow, S Magdes, F J Martinez, S Rajagopalan, J Vestbo, Y Yates, D E Newby, on behalf of the SUMMIT Investigators

This article has been chosen by the Editor to be of special interest or importance and is freely available online.

MORE CONTENTS ➤
Education in Heart
1543 Pathophysiology, diagnosis and treatment of tachycardiomyopathy
   C A Martin, P D Lambiase

JournalScan
1553 Cardiovascular highlights from non-cardiology journals
   T L Jones, J M McCabe

Image challenge
1552 Palpitations in a 72-year-old woman
   C A Martin, P R Gajendragadkar, S Agarwal

PostScript
1557 Mechanical prosthetic heart valves (MPHV) in pregnancy are associated with a high risk of maternal and fetal morbidity and mortality
   S Vause, B Clarke, C Tower, C Hay, M Knight

1557 Moderate sedation in cardiac electrophysiology laboratory: a retrospective safety analysis
   Ç M Üreyen, M M N Aksoy, E Tatlı

Correction
   e1 Correction: Altered biophysical properties of the voltage-gated sodium channels in mouse atrial and ventricular cardiomyocytes
