

# SUPPLEMENTARY FILE 2

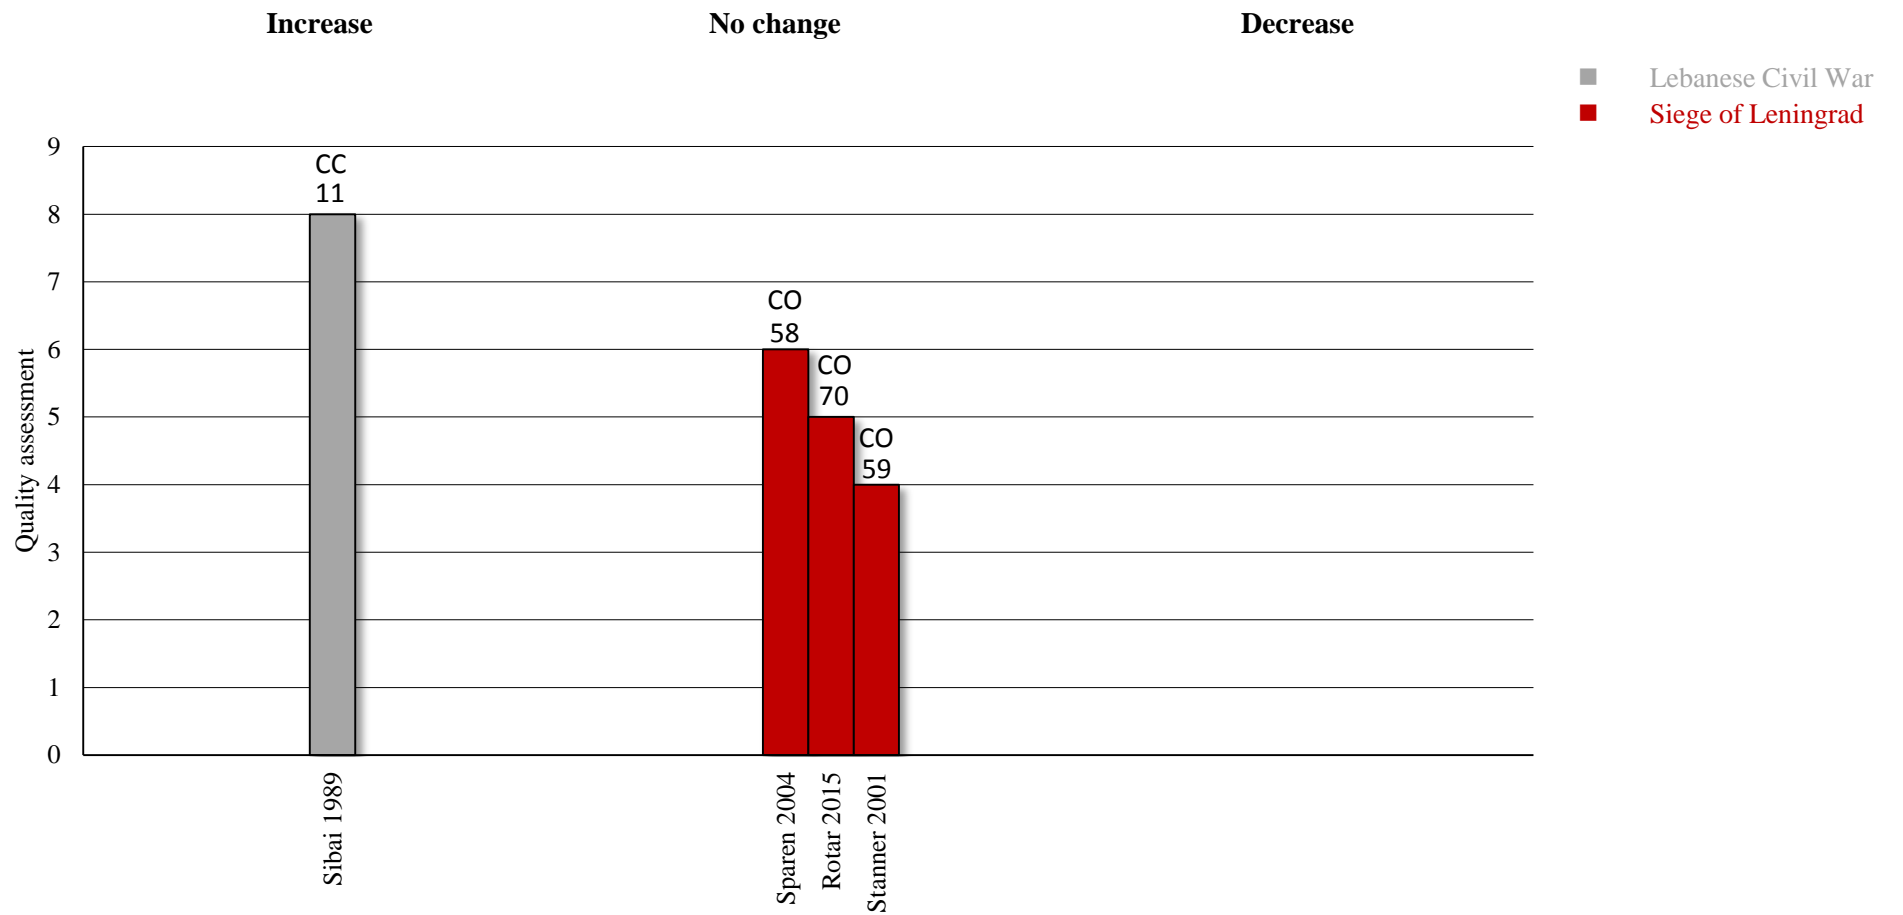

Interpretation: Colour refers to armed conflict, number above the bar refers to length of follow up between conflict exposure and outcome, bars grouped as showing either an increase, decrease, or no change following exposure to armed conflict. CC: case-control, CO: cohort, CS: cross-sectional, EC: ecological.

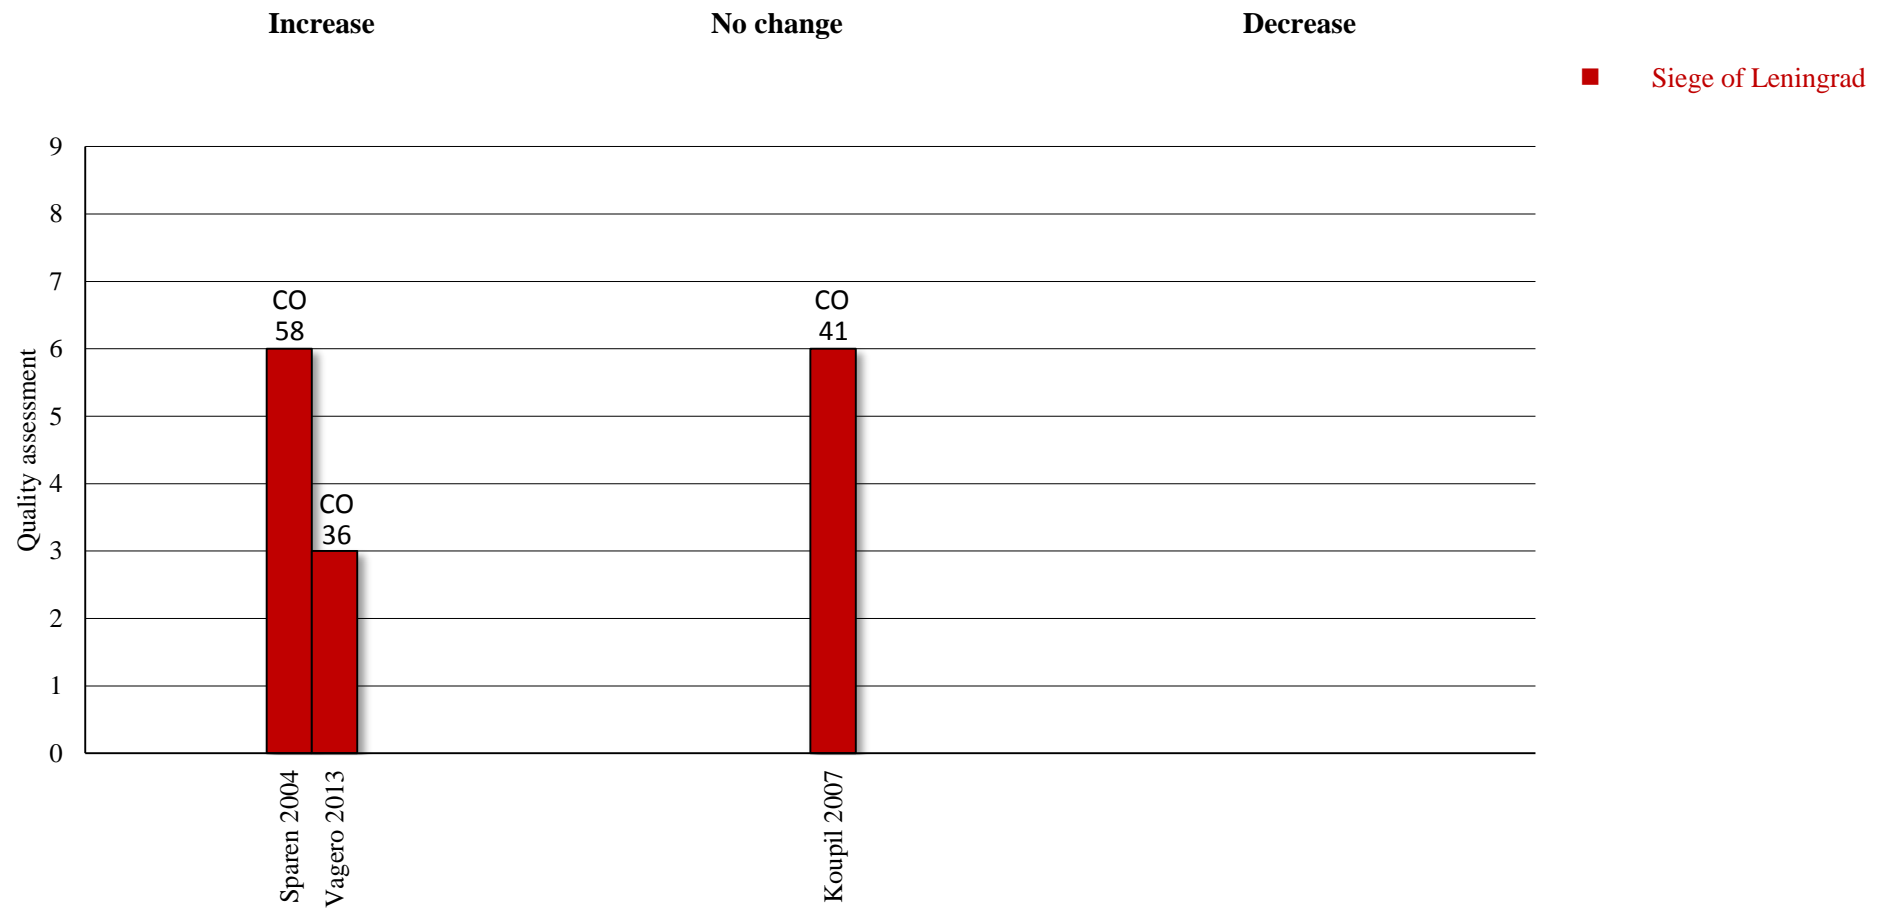

**Supplementary Figure 1.** The impact of armed conflict on acute myocardial infarction incidence/prevalence

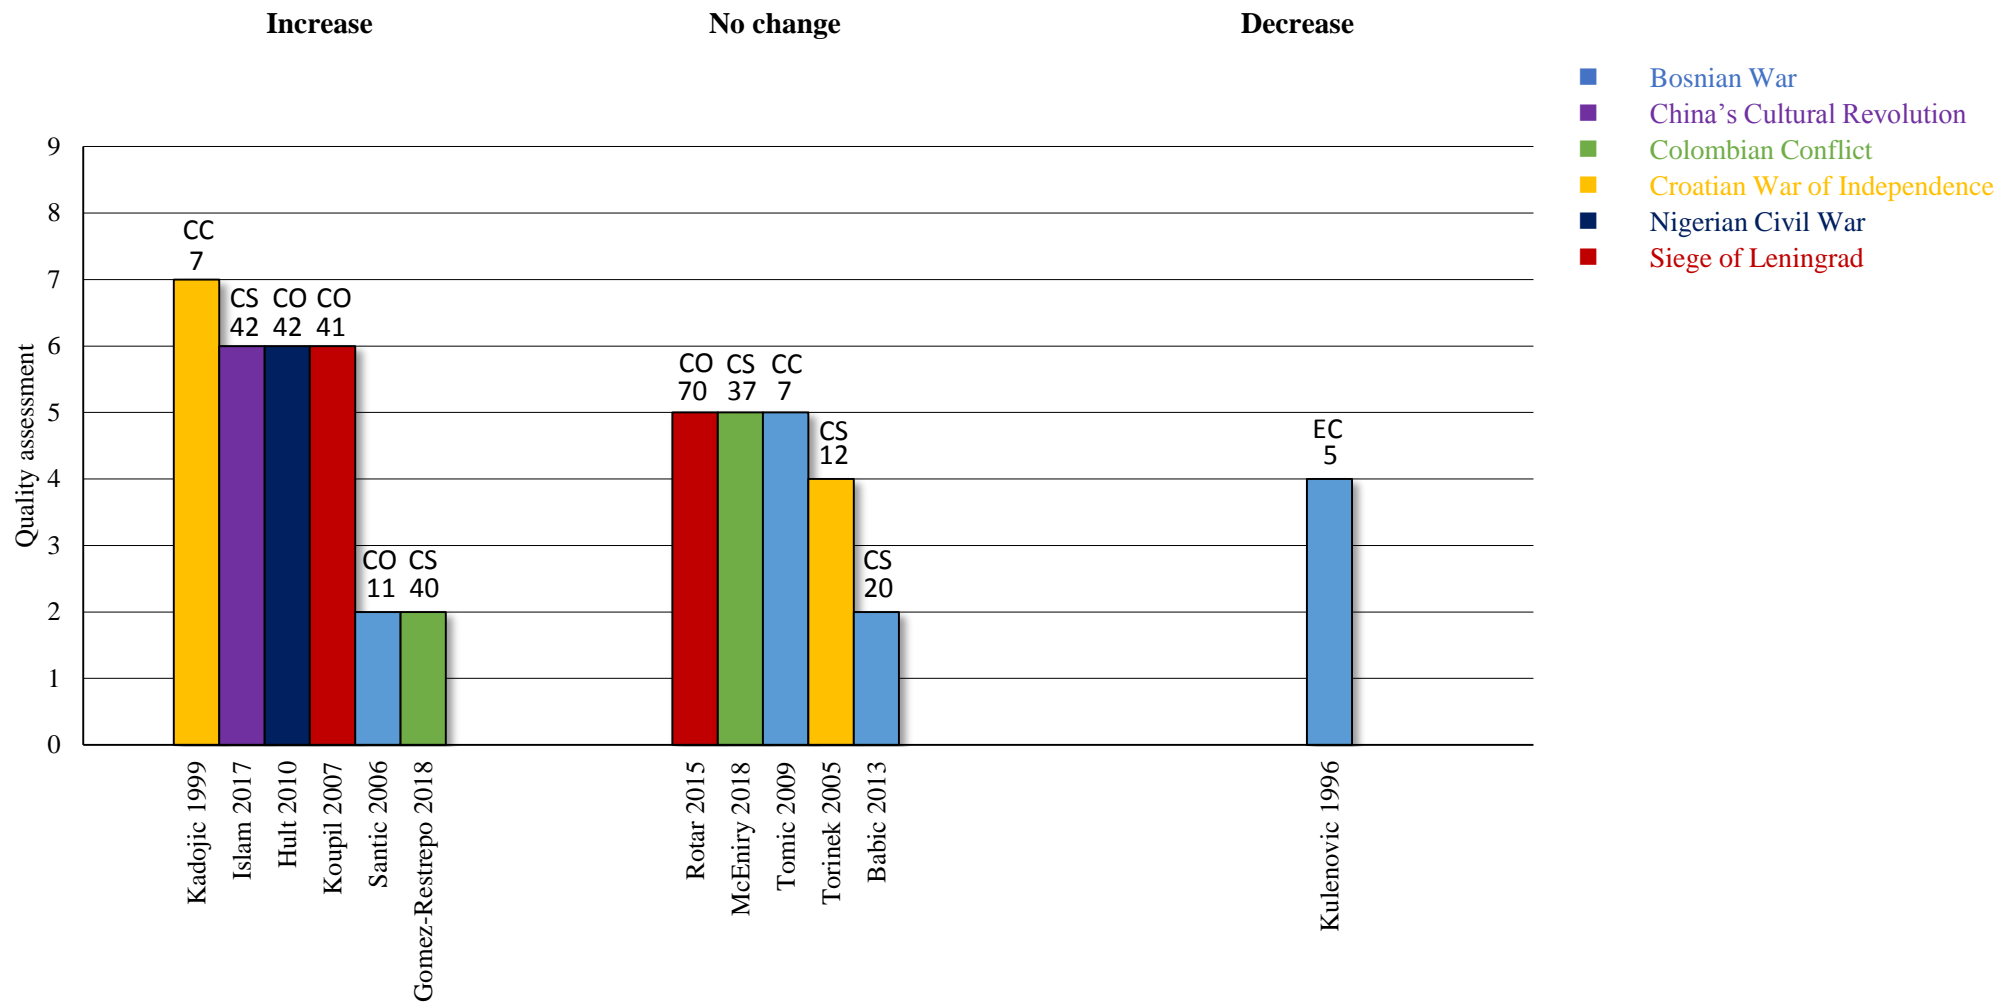

**Supplementary Figure 2.** The impact of armed conflict on angina incidence/prevalence

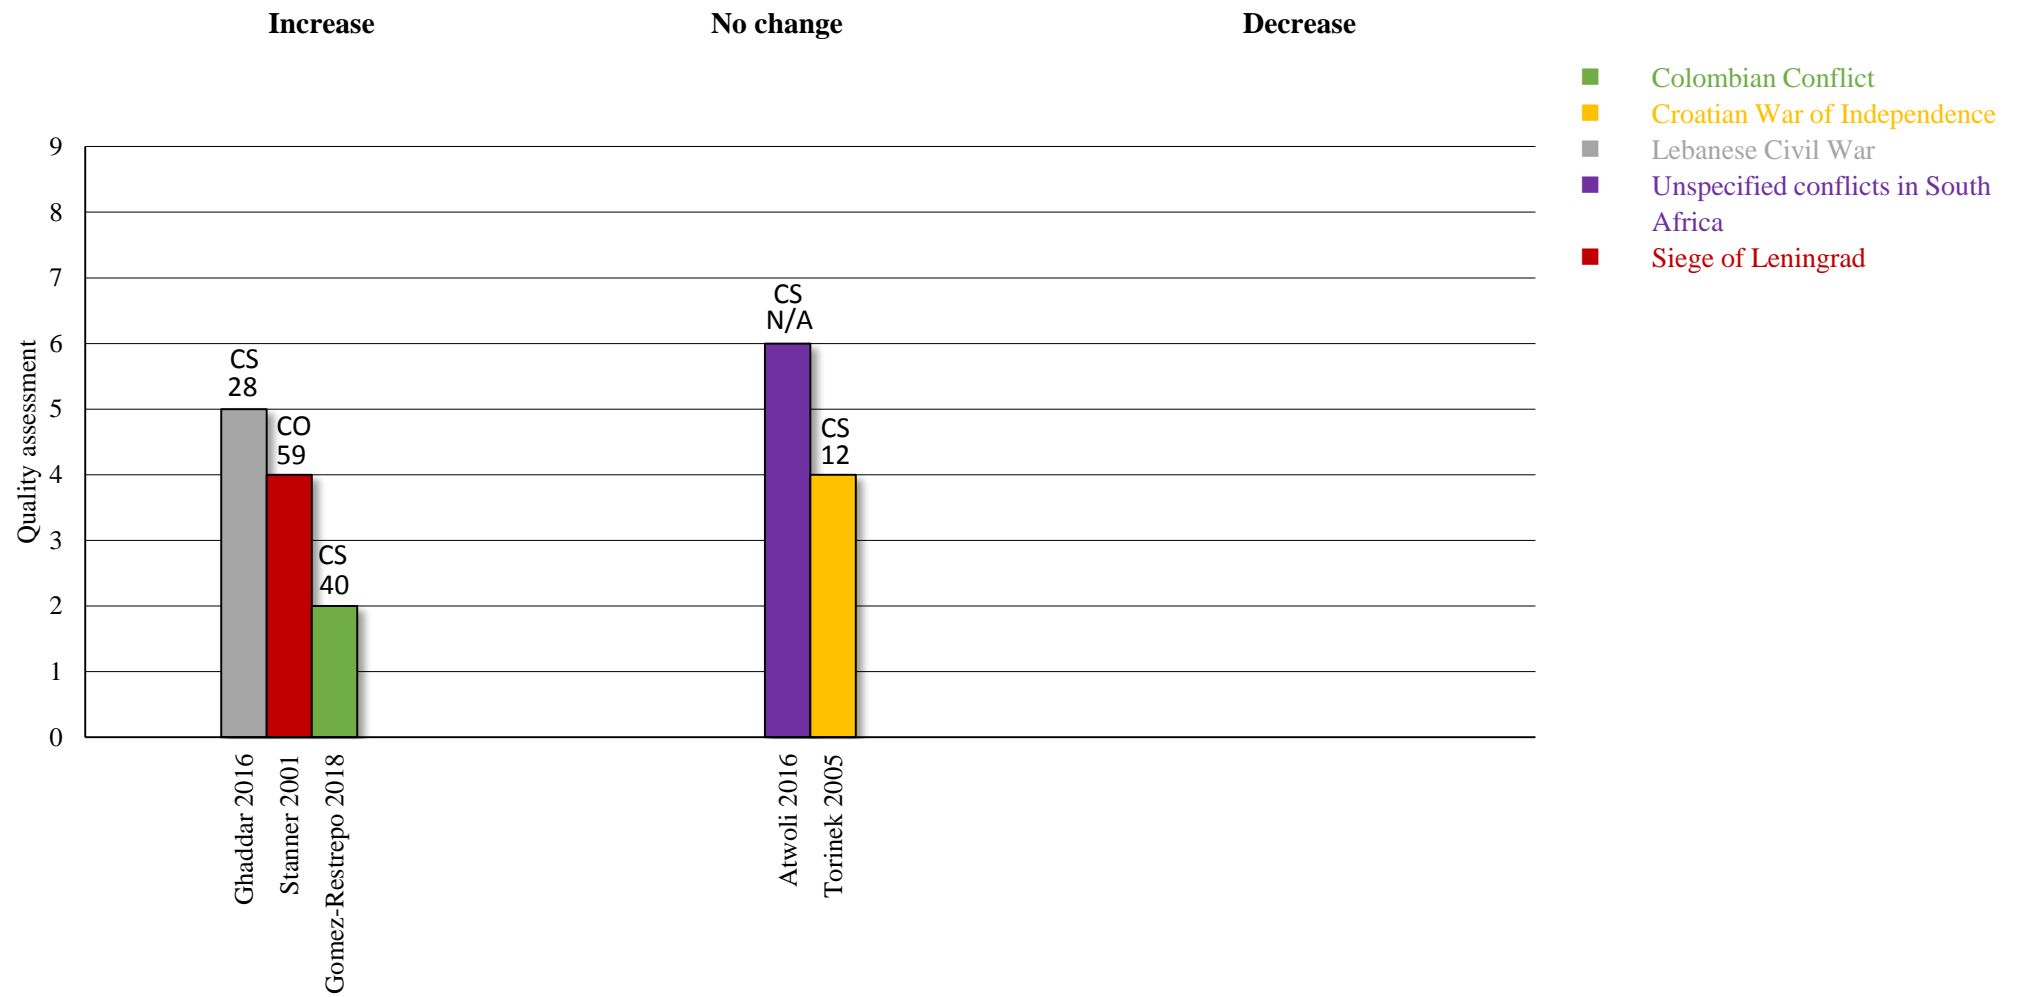

**Supplementary Figure 3.** The impact of armed conflict on chronic ischaemic heart disease incidence/prevalence

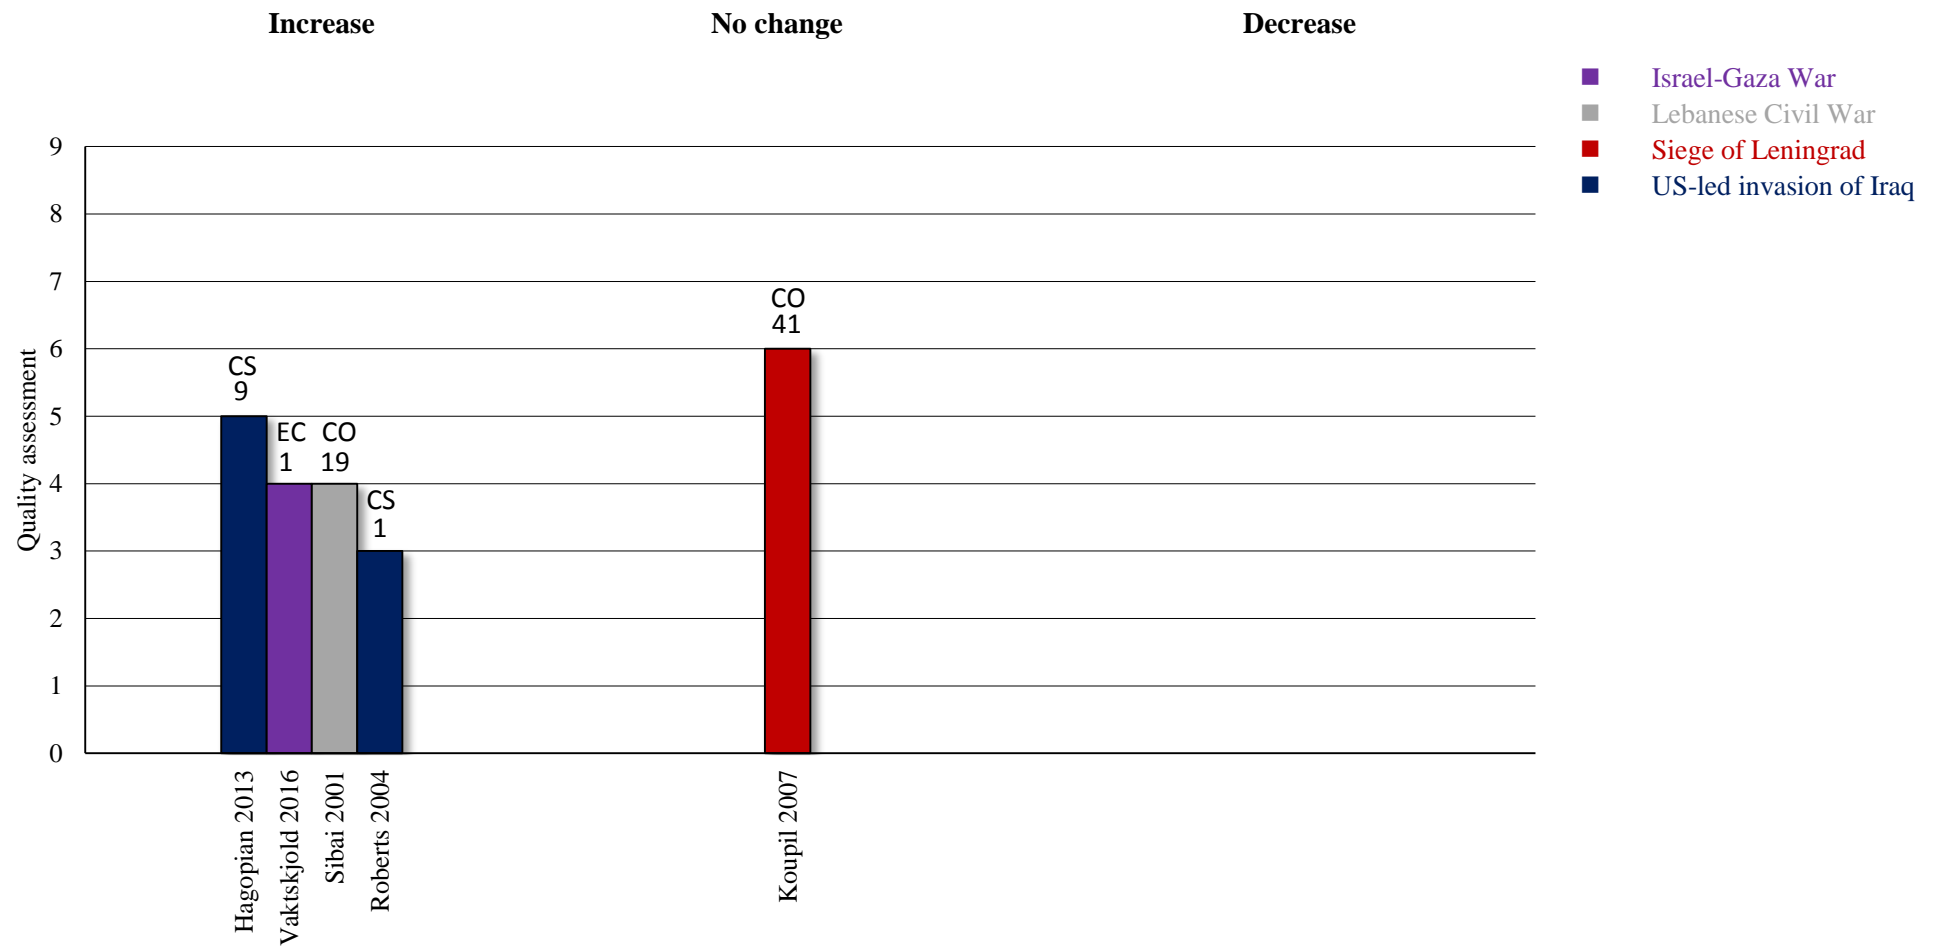

**Supplementary Figure 4.** The impact of armed conflict on mortality from chronic ischaemic heart disease

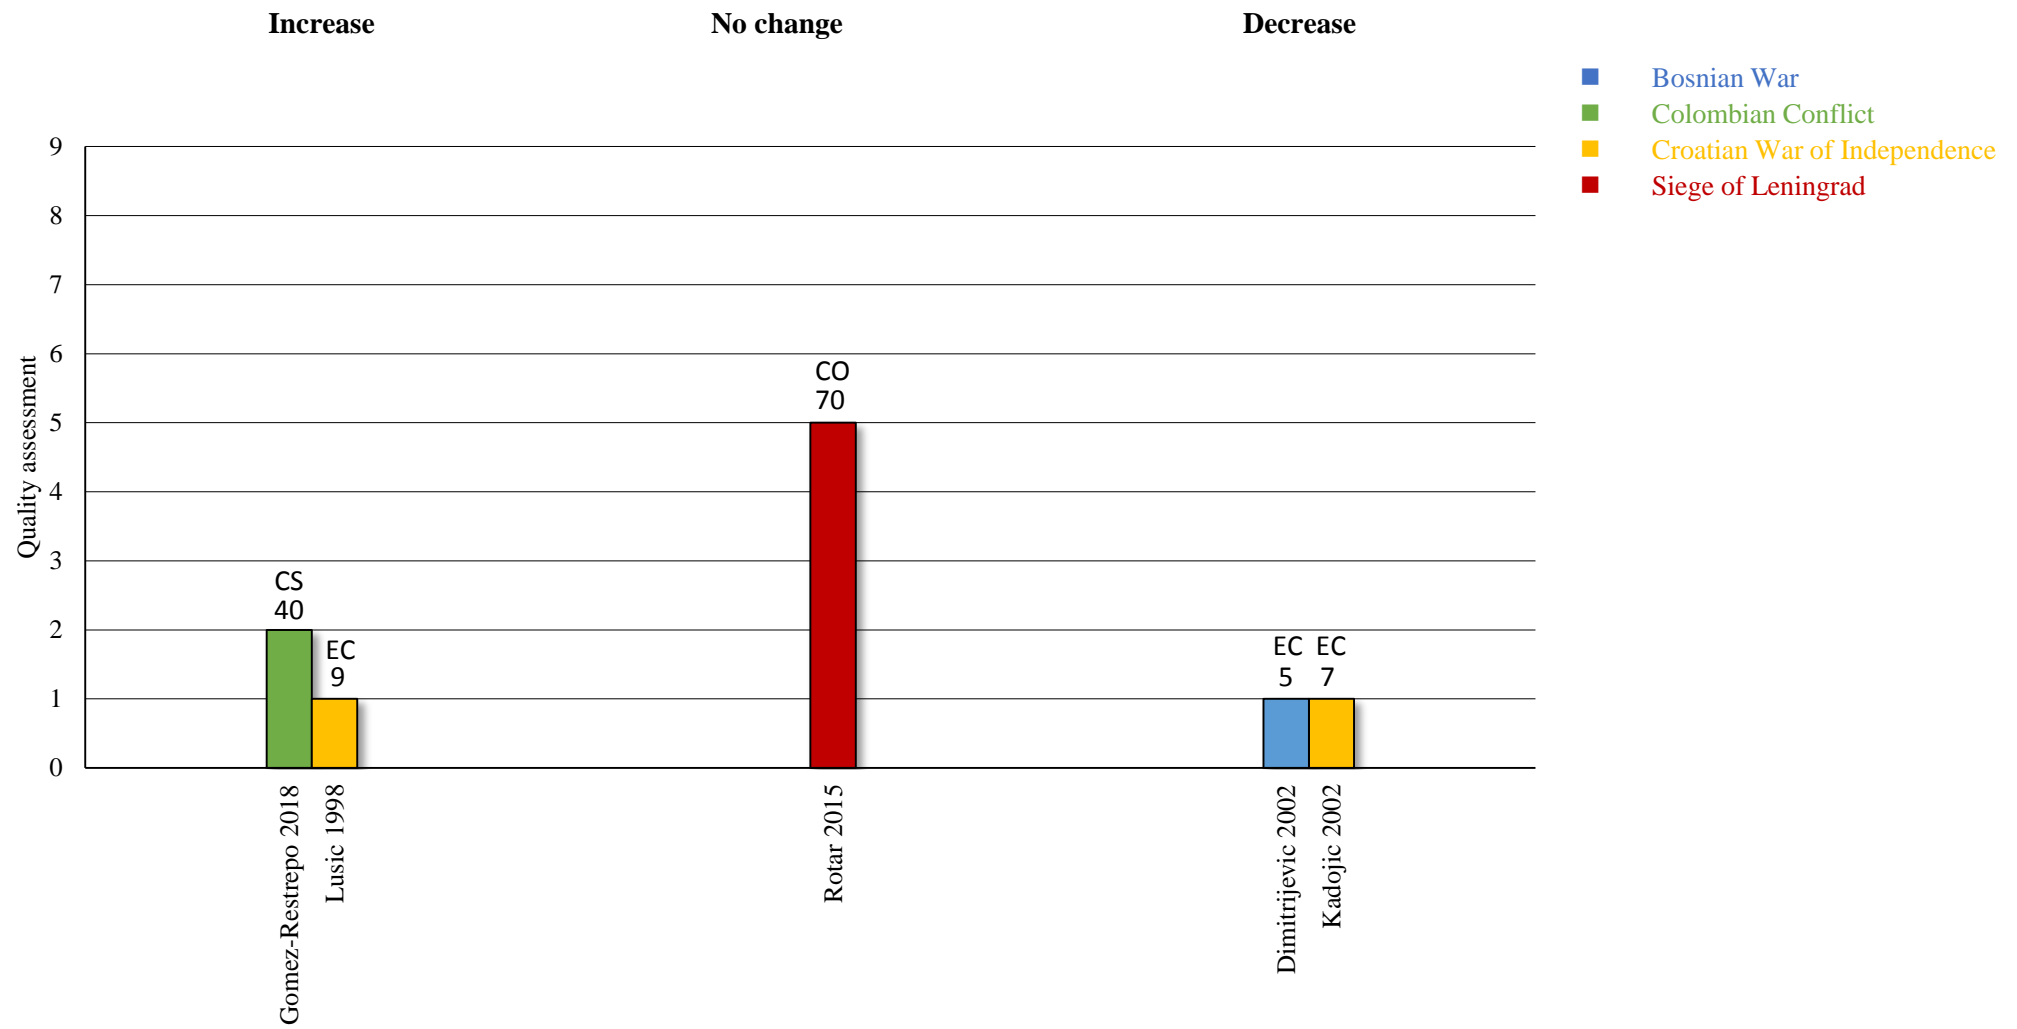

**Supplementary Figure 5.** The impact of armed conflict on hypertension incidence/prevalence

**Supplementary Figure 6.** The impact of armed conflict on unspecified heart disease incidence/prevalence

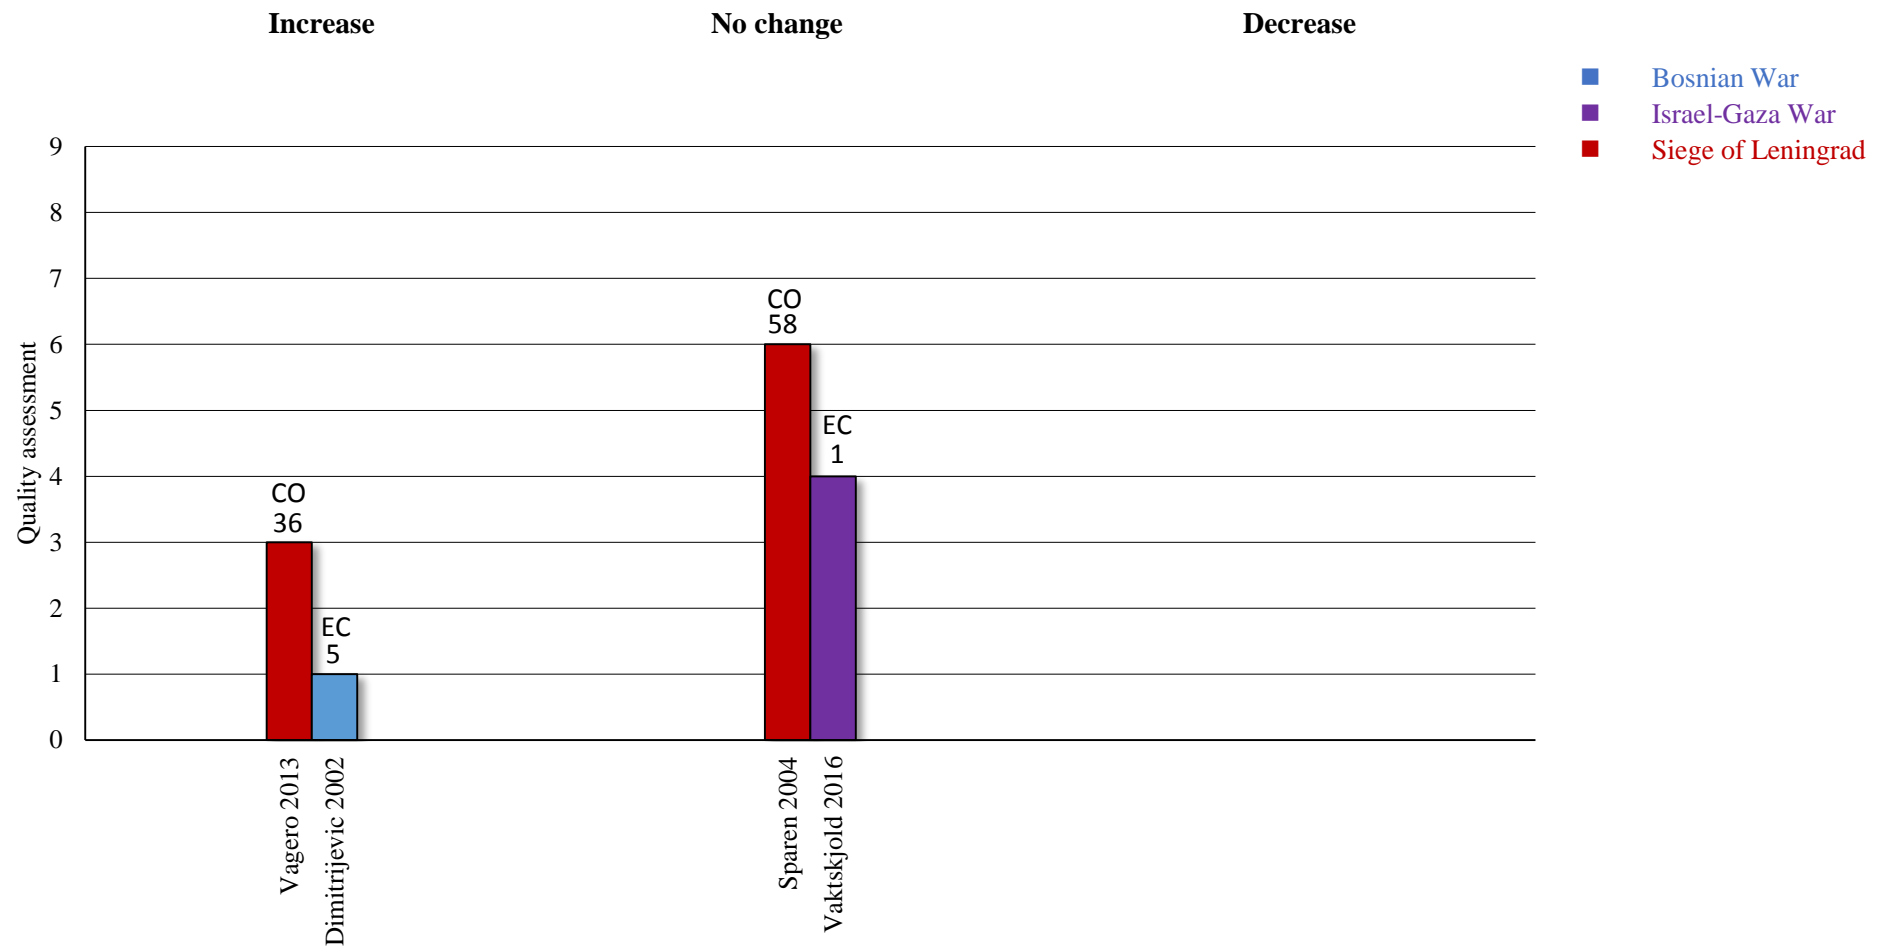

**Supplementary Figure 7.** The impact of armed conflict on mortality from unspecified heart disease

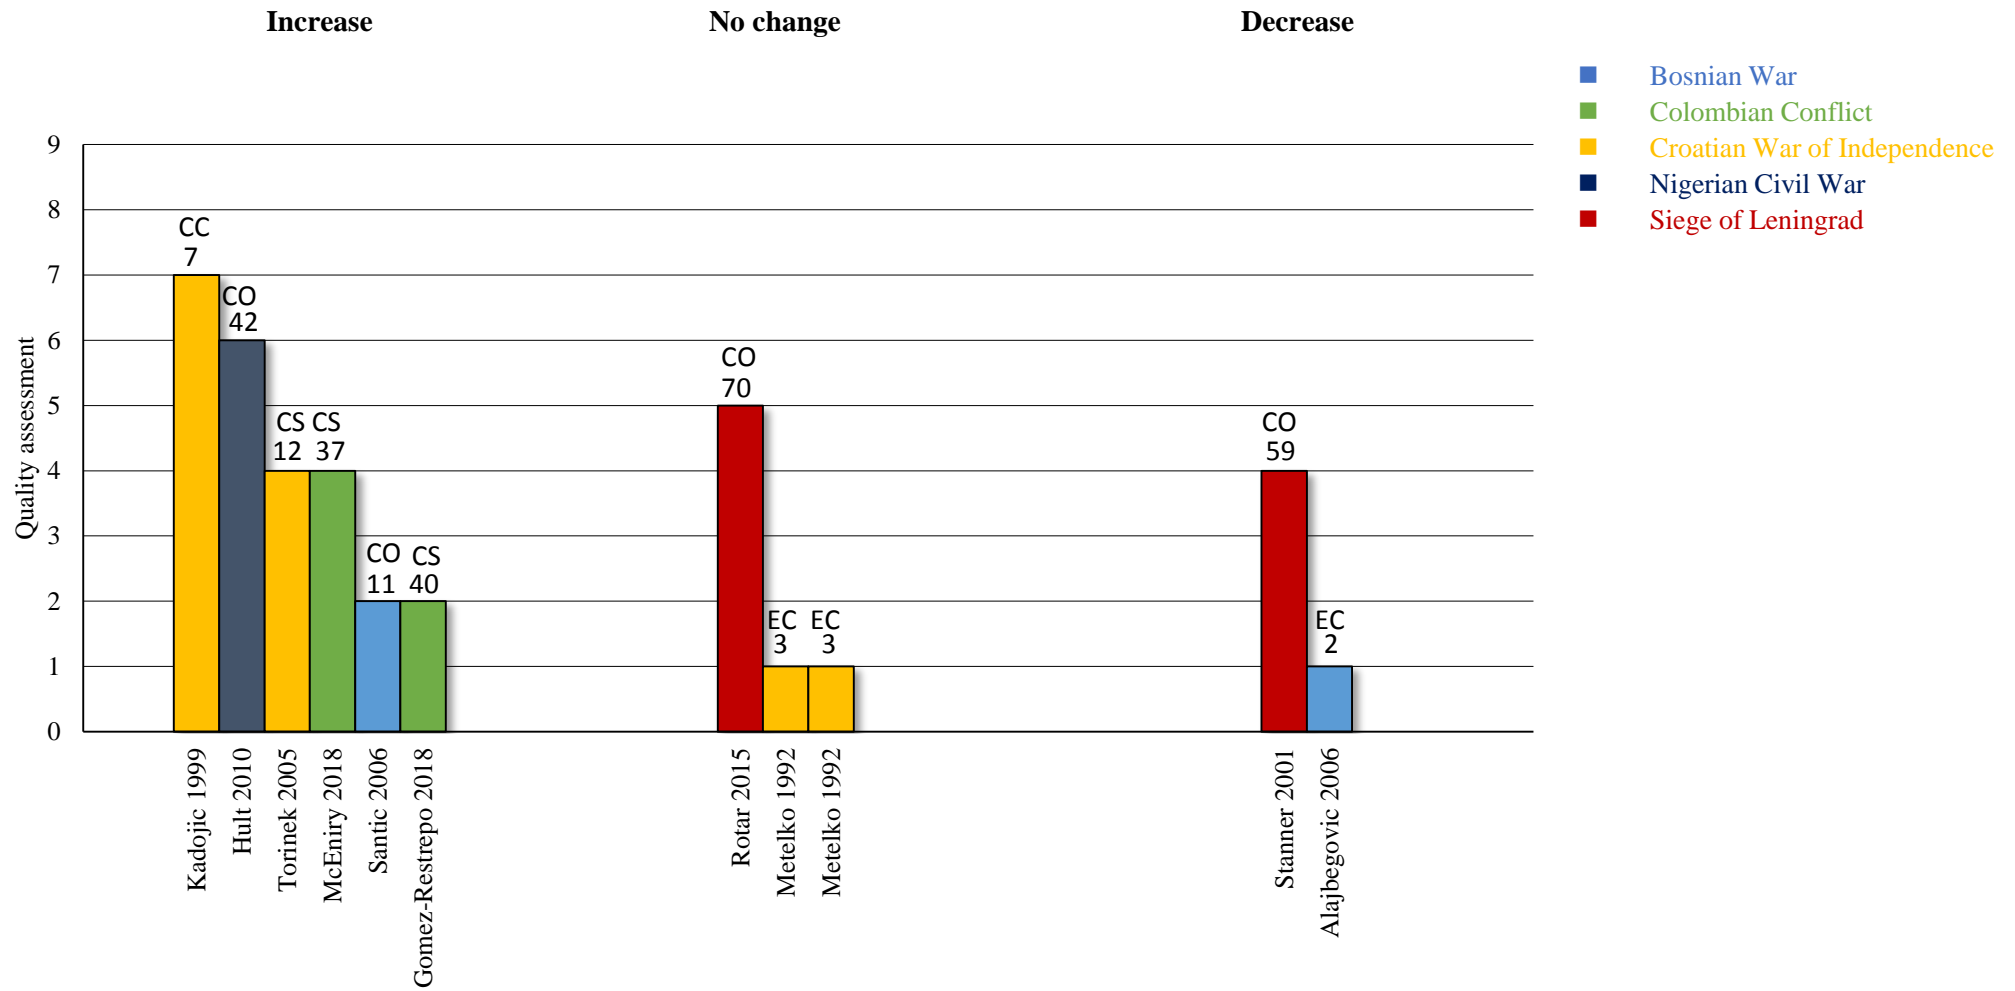

**Supplementary Figure 8.** The impact of armed conflict on unspecified stroke incidence/prevalence

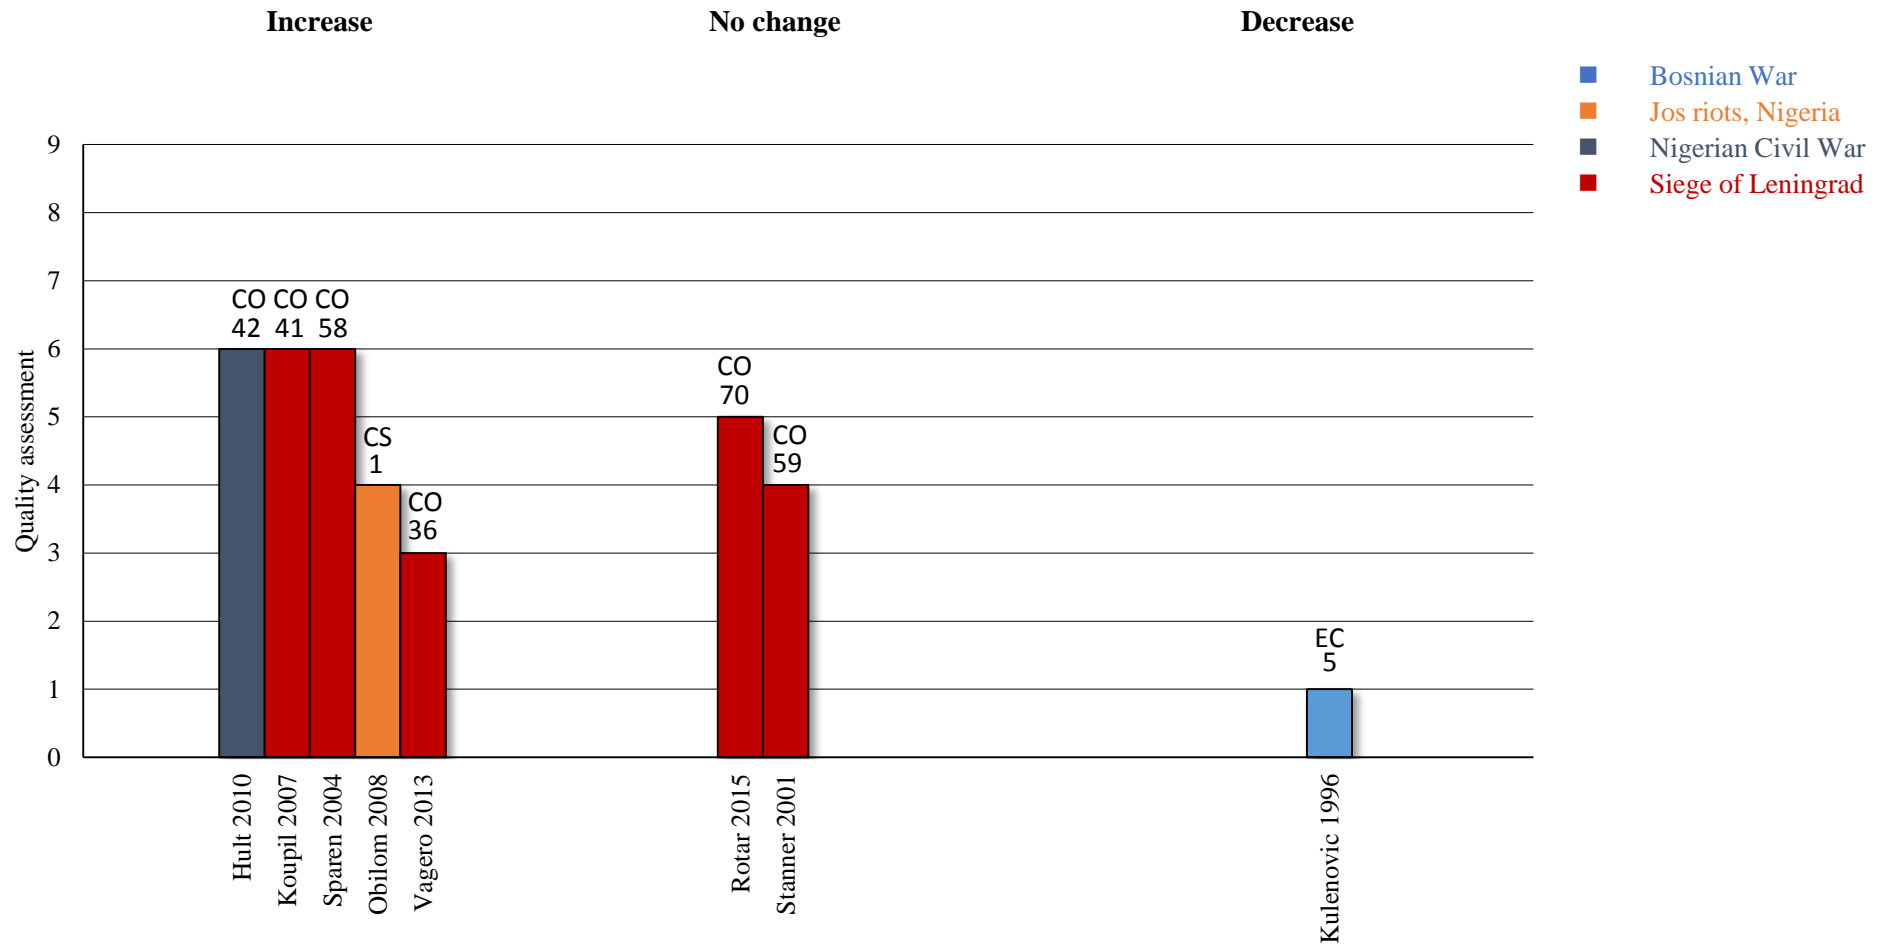

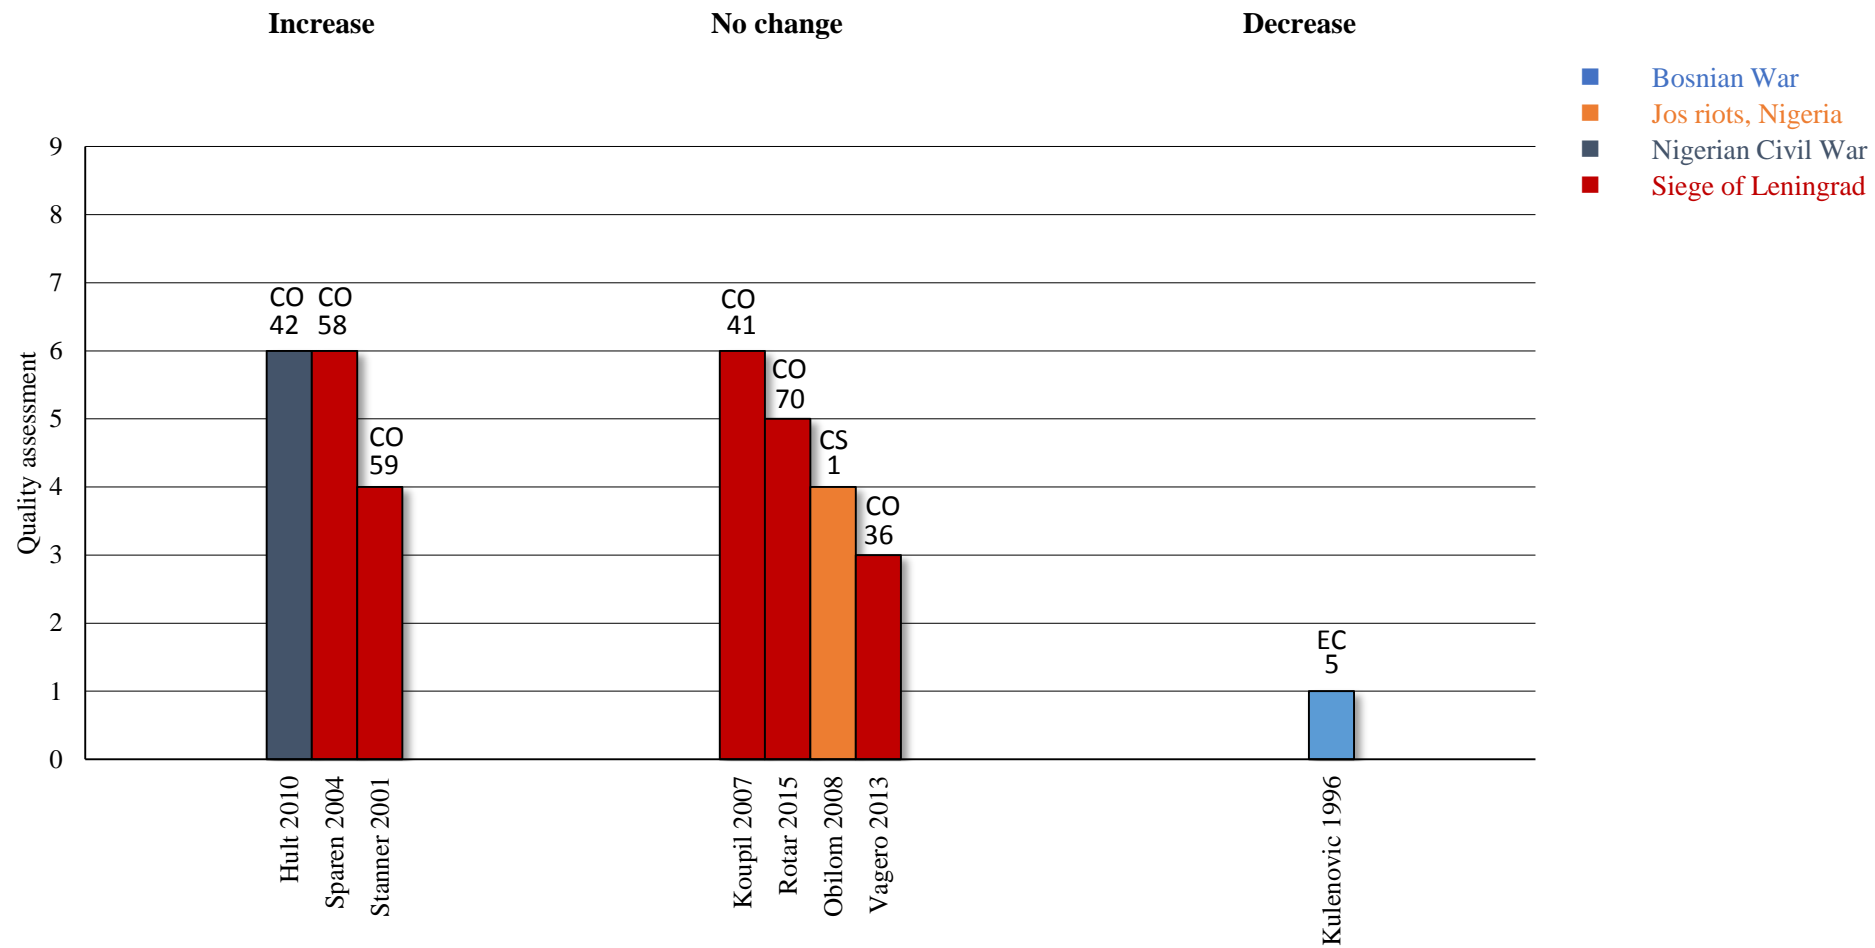

**Supplementary Figure 9.** The impact of armed conflict on mortality from unspecified stroke

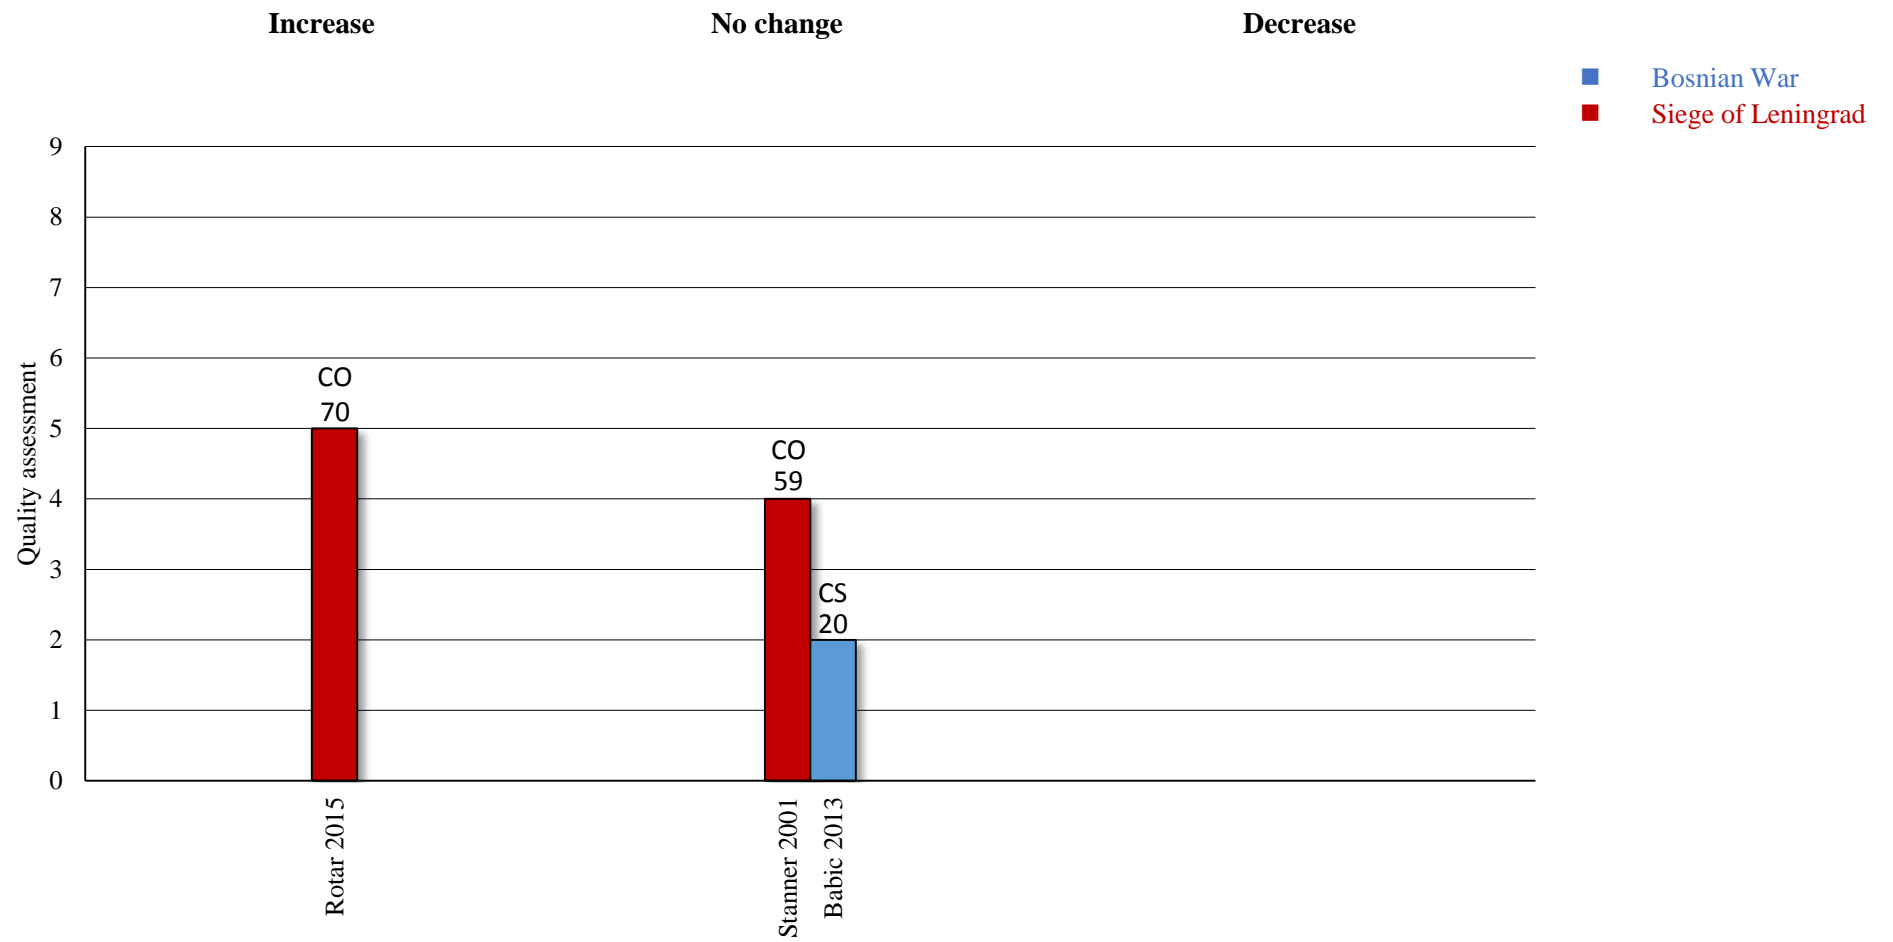

**Supplementary Figure 10.** The impact of armed conflict on unspecified diabetes incidence/prevalence

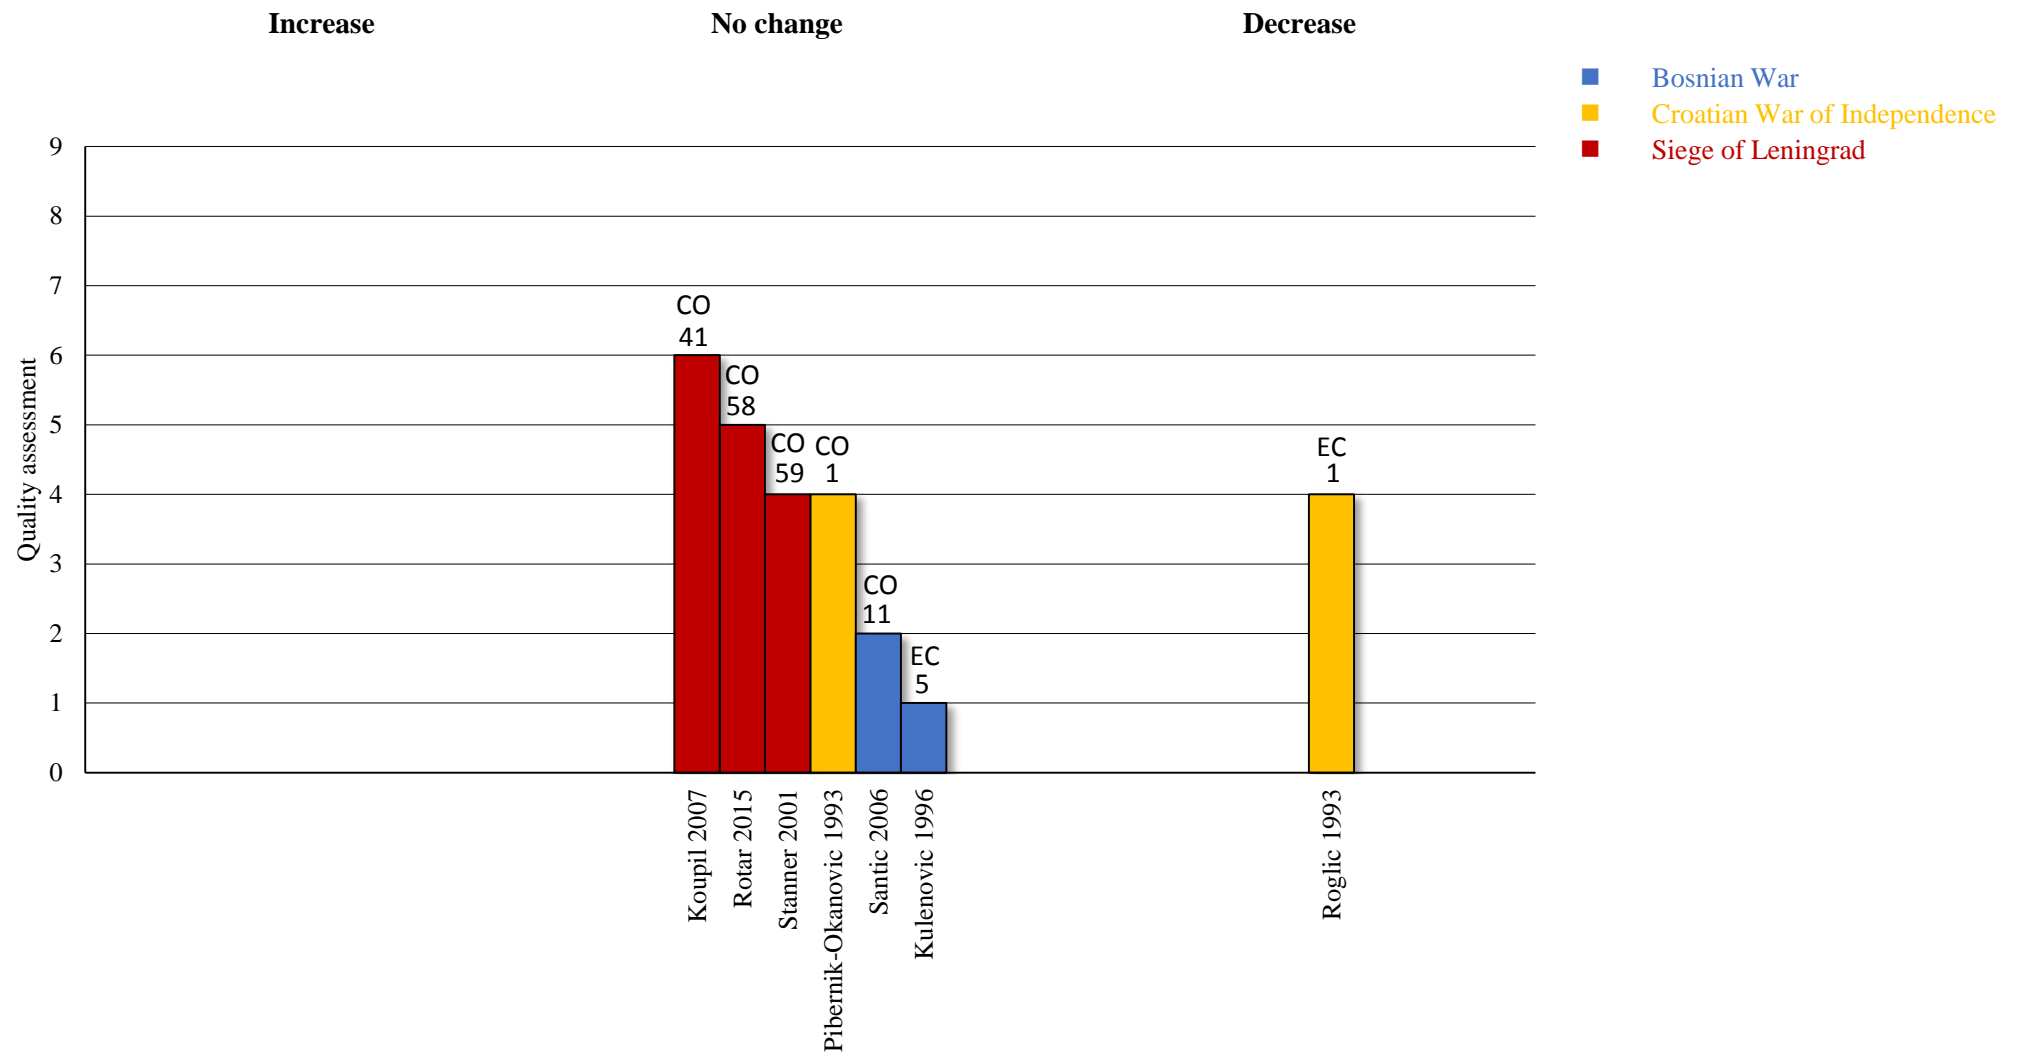

**Supplementary Figure 11.** The impact of armed conflict on systolic blood pressure

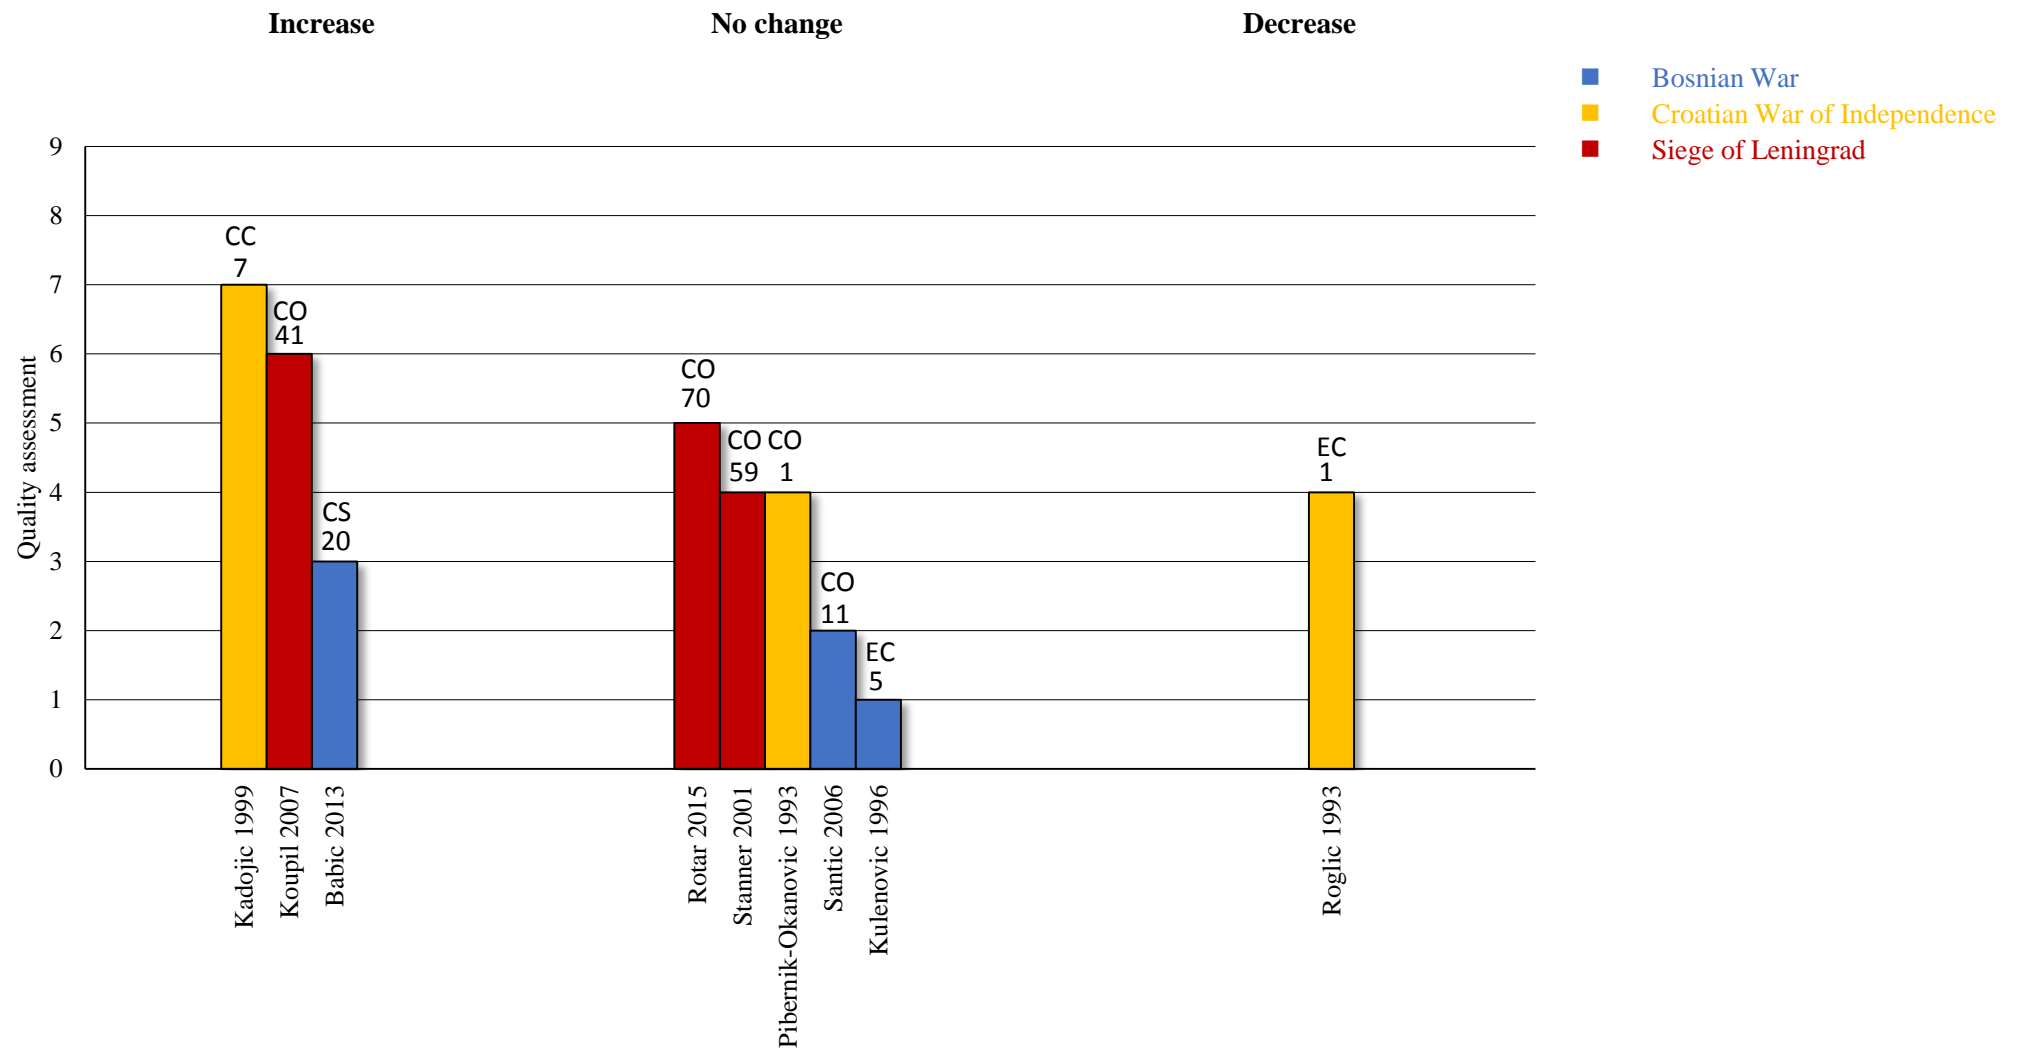

**Supplementary Figure 12.** The impact of armed conflict on diastolic blood pressure

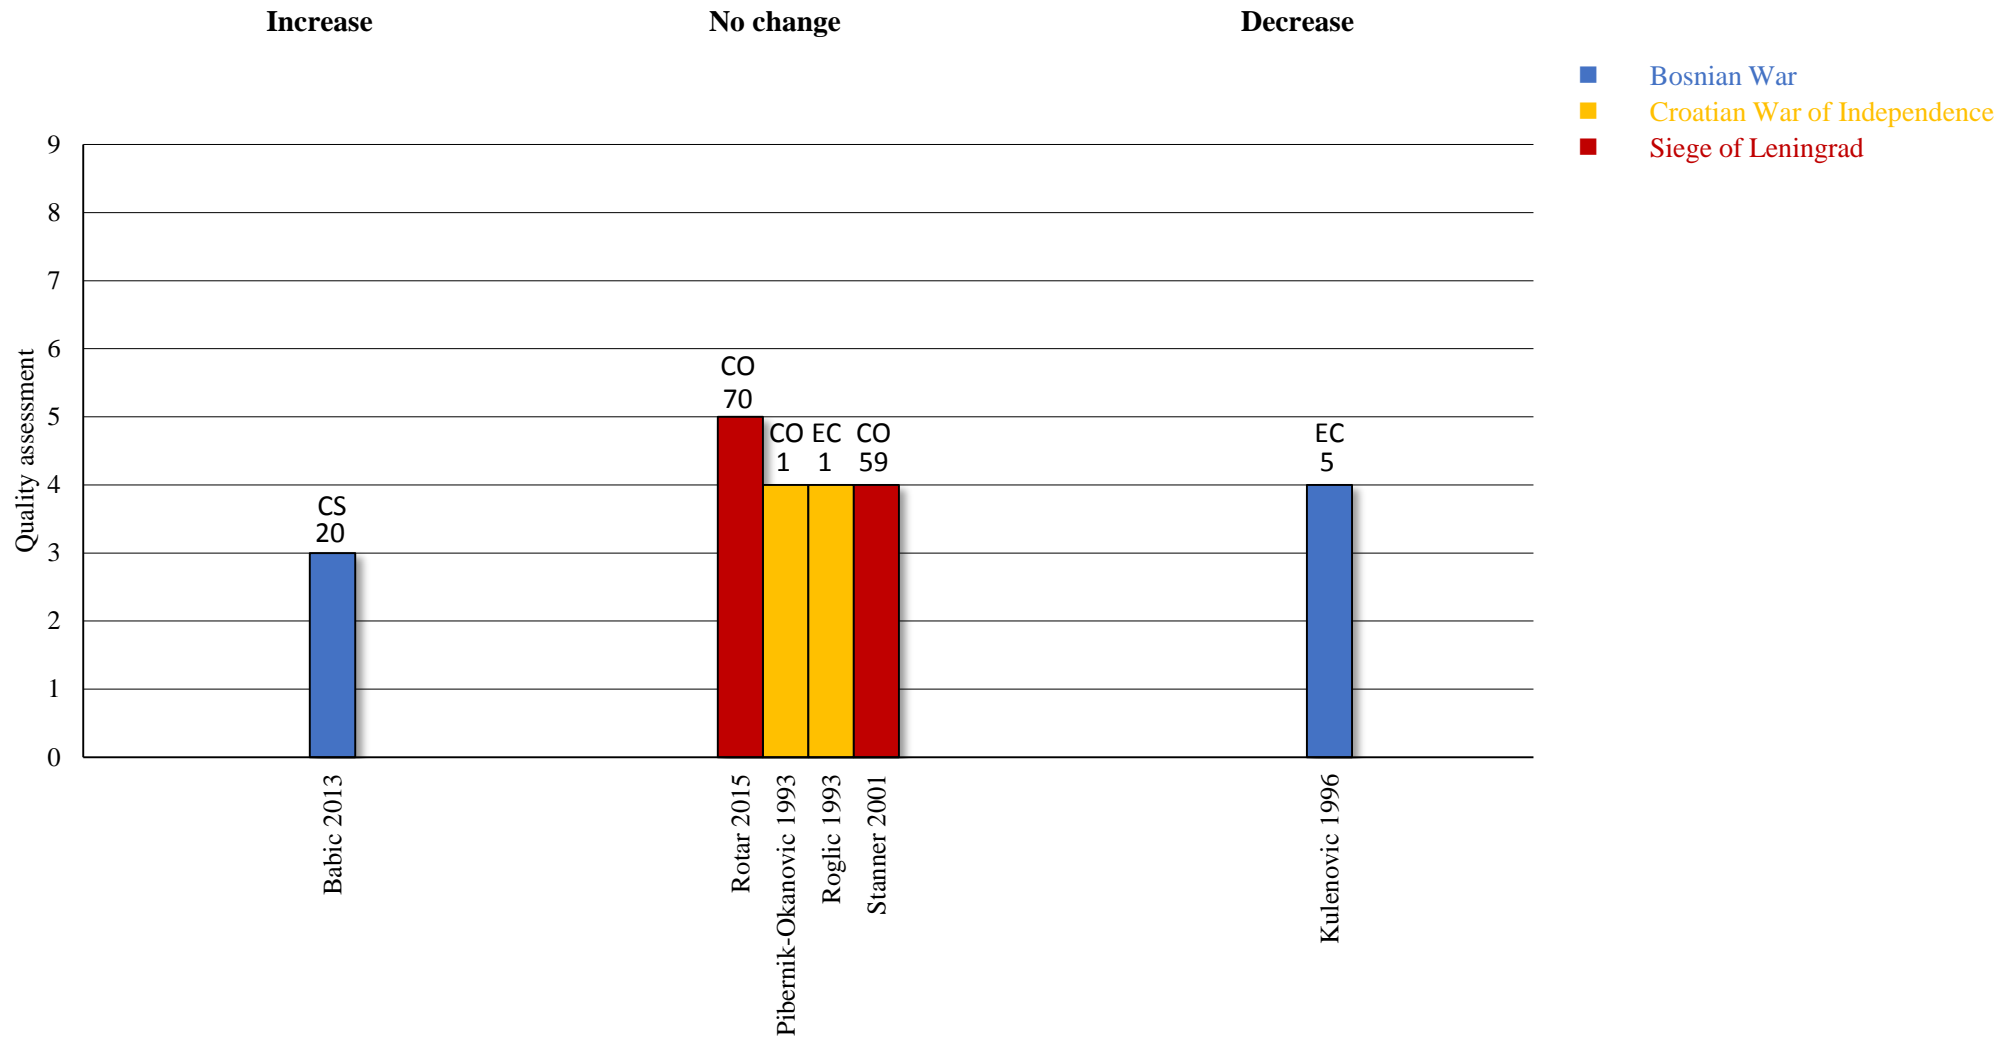

**Supplementary Figure 13.** The impact of armed conflict on high density lipoprotein

**Supplementary Figure 14.** The impact of armed conflict on total cholesterol

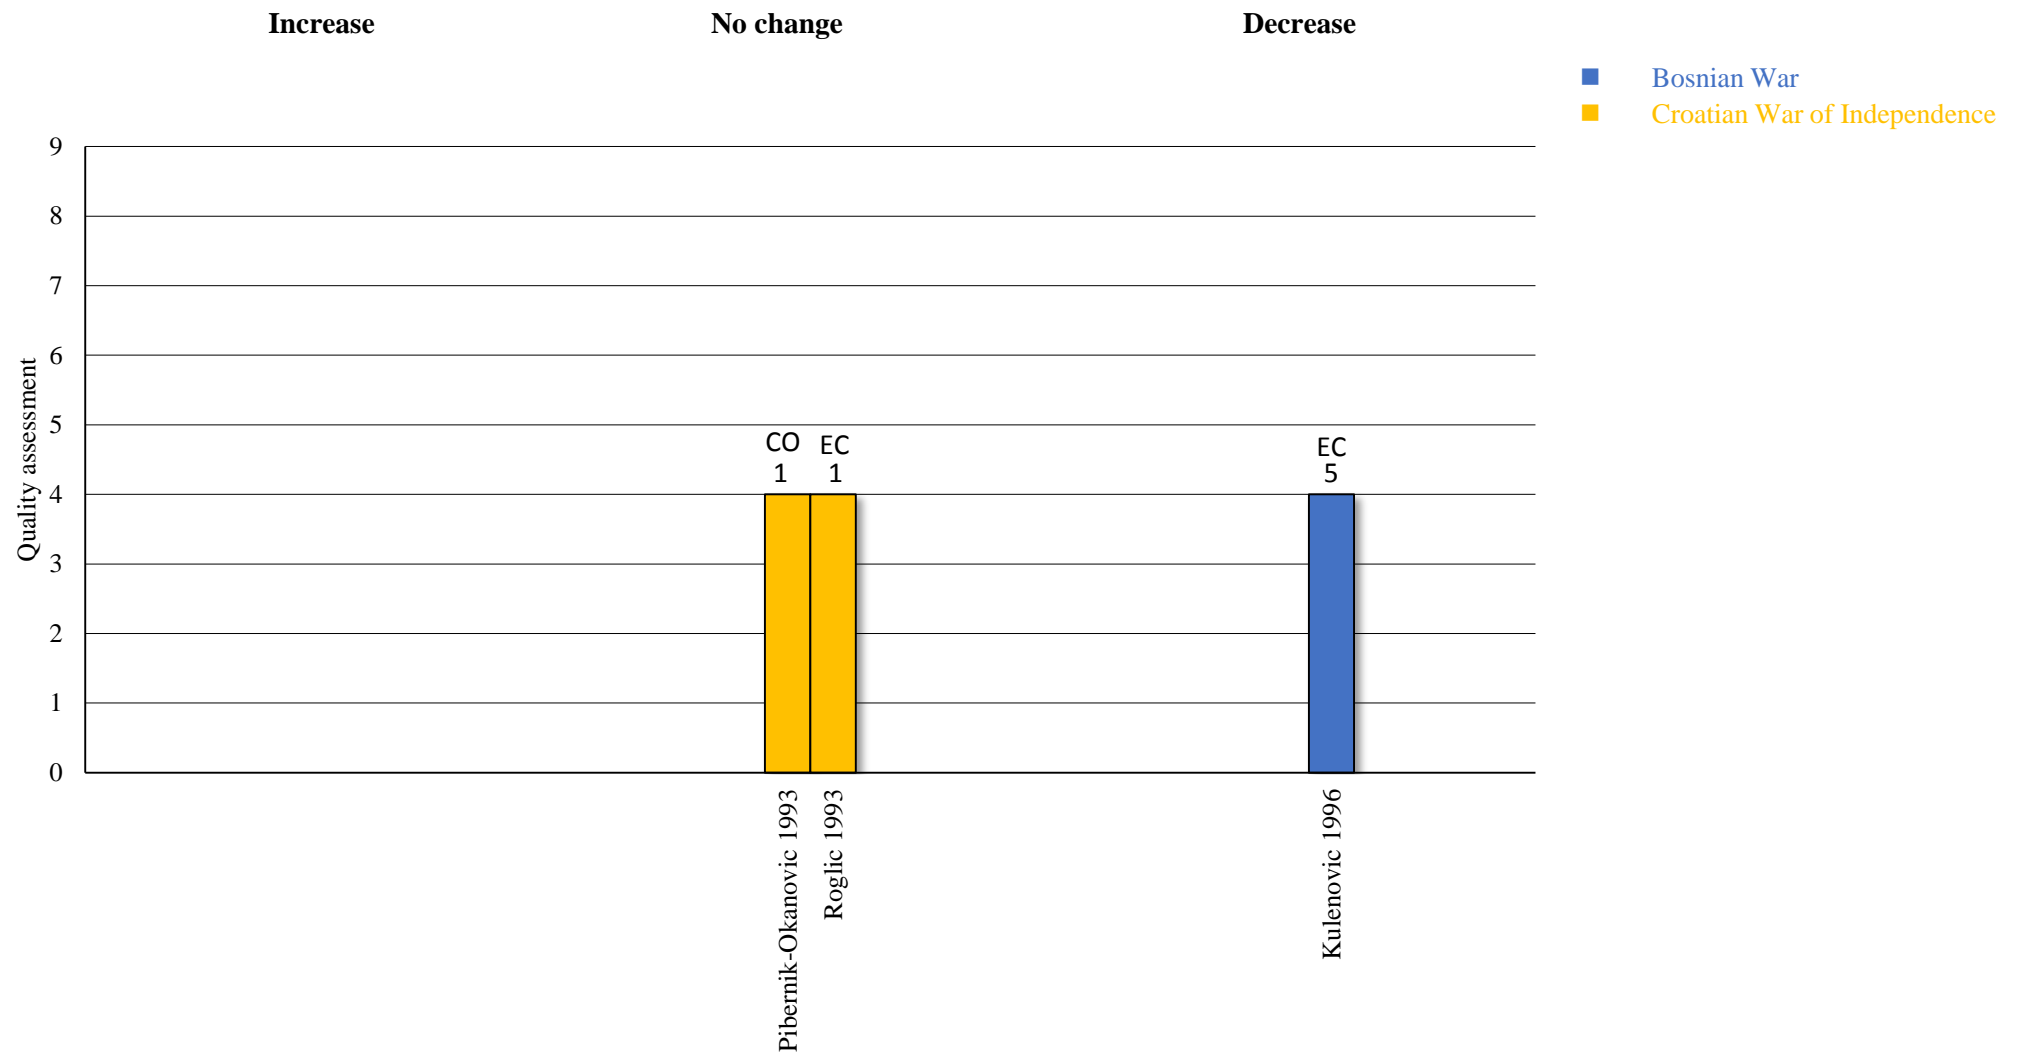

**Supplementary Figure 15.** The impact of armed conflict on triglycerides

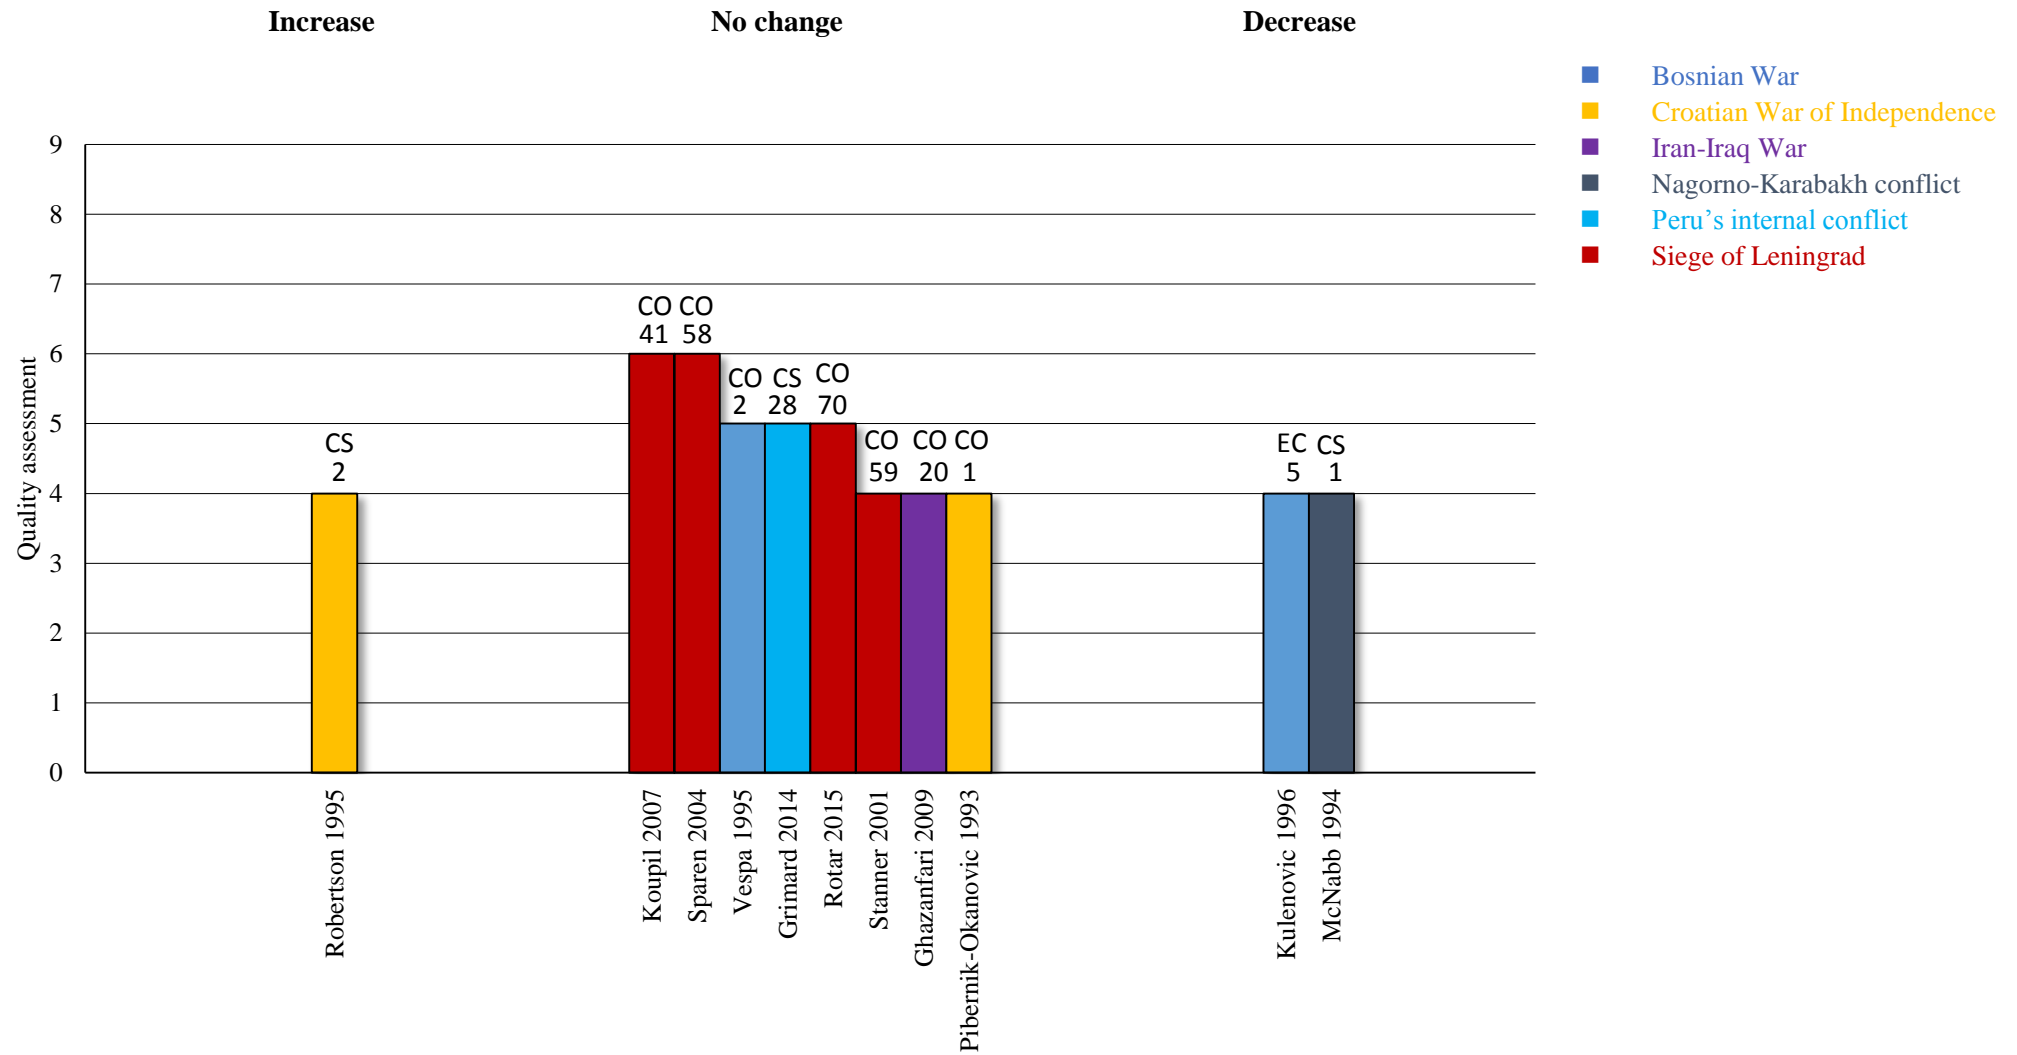

**Supplementary Figure 16.** The impact of armed conflict on fasting blood glucose

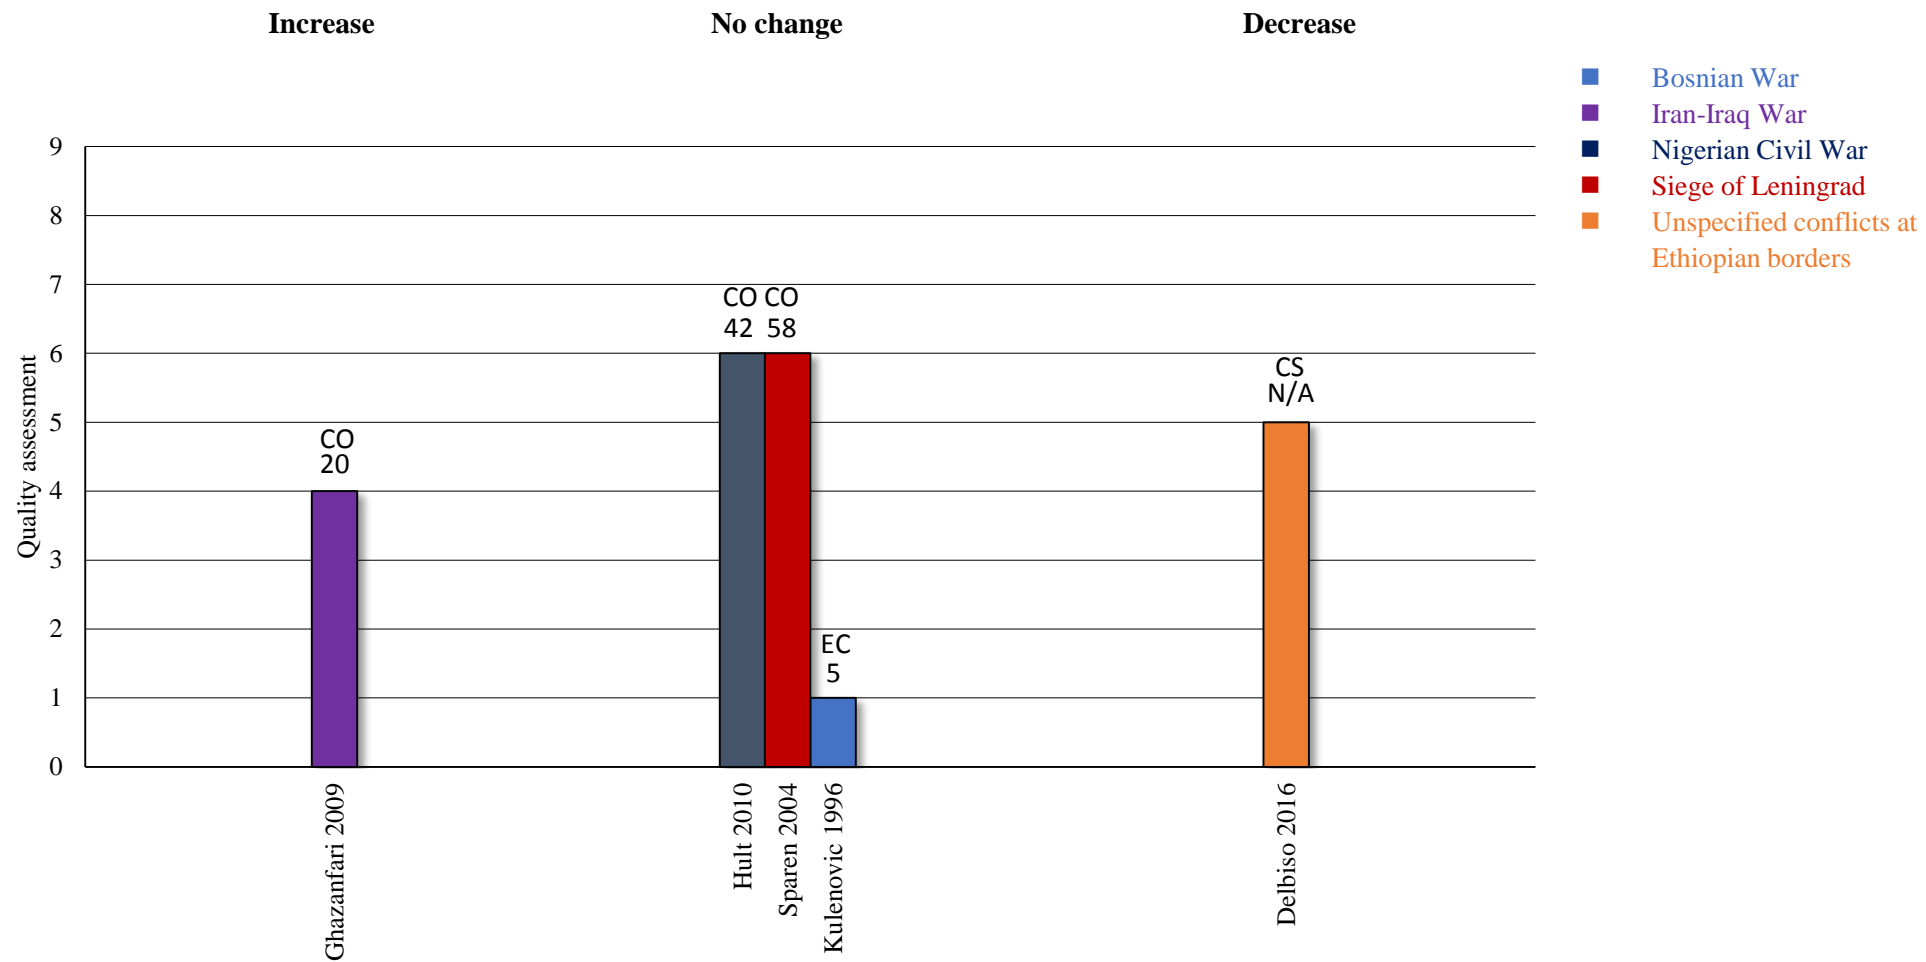

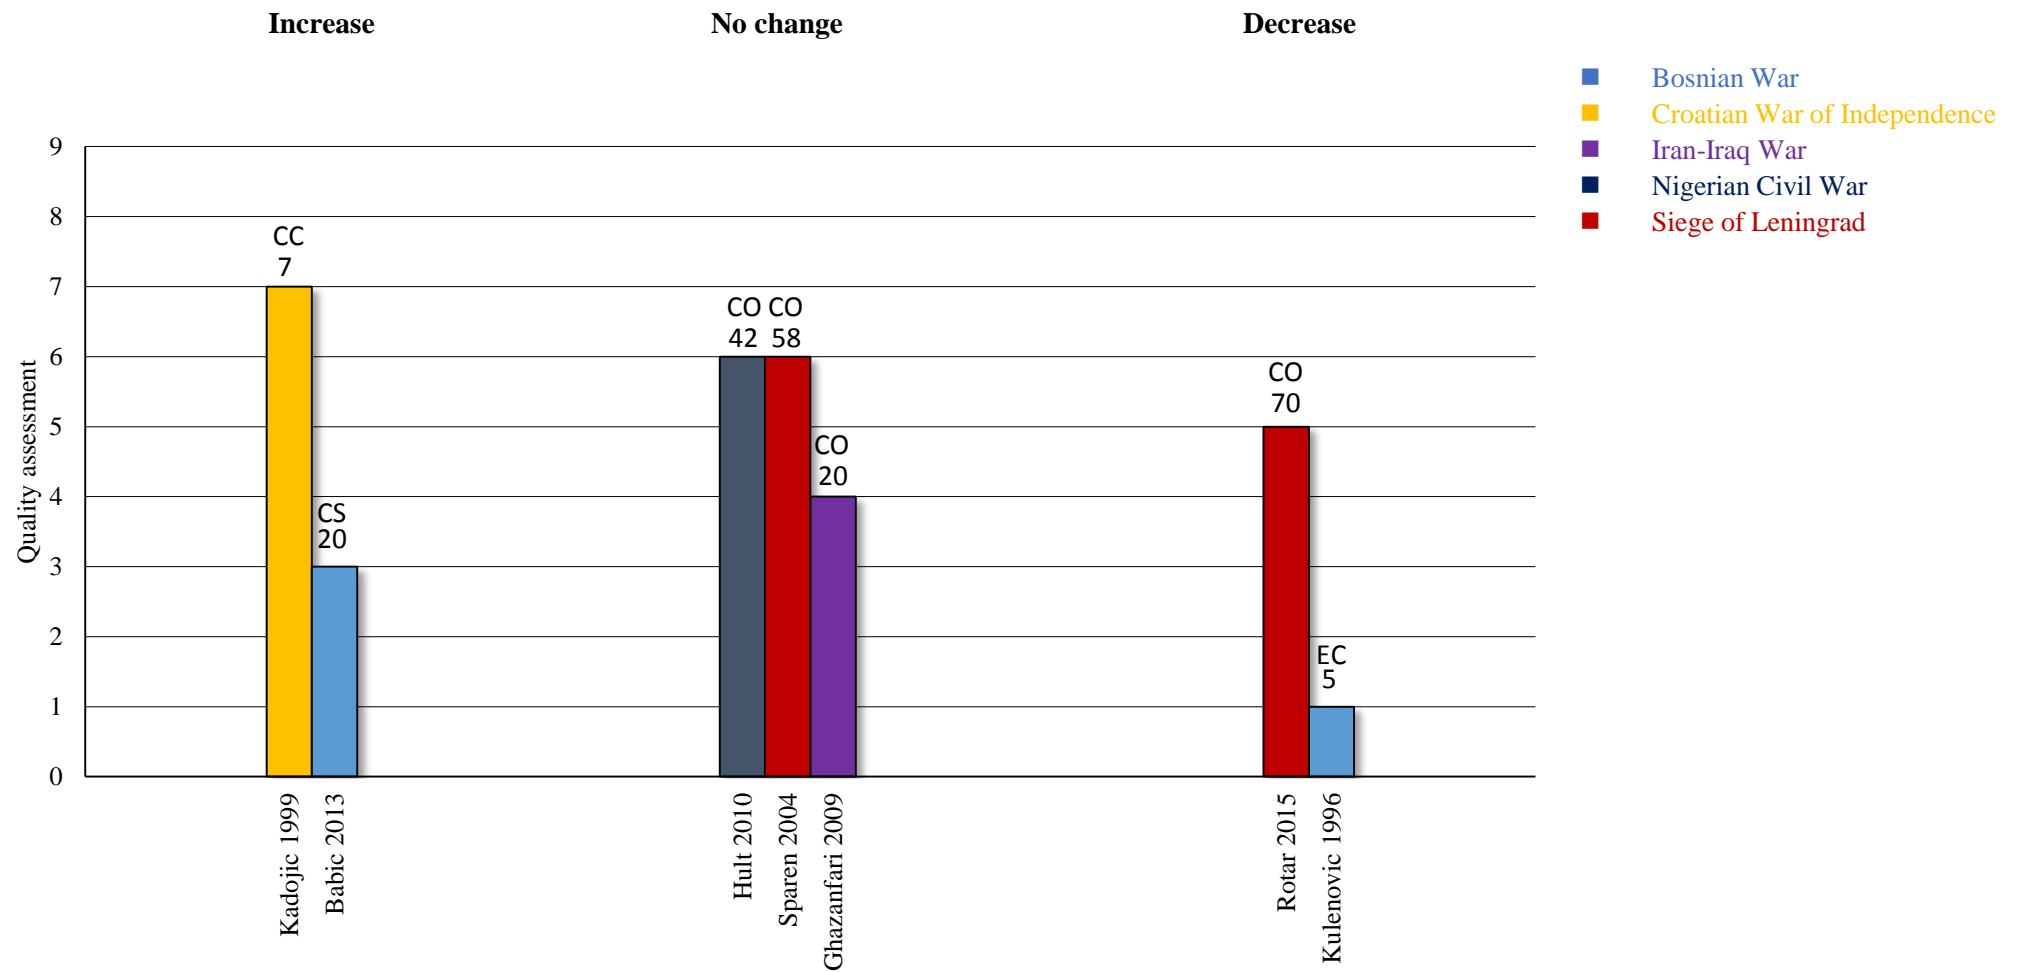

**Supplementary Figure 17.** The impact of armed conflict on HbA1c

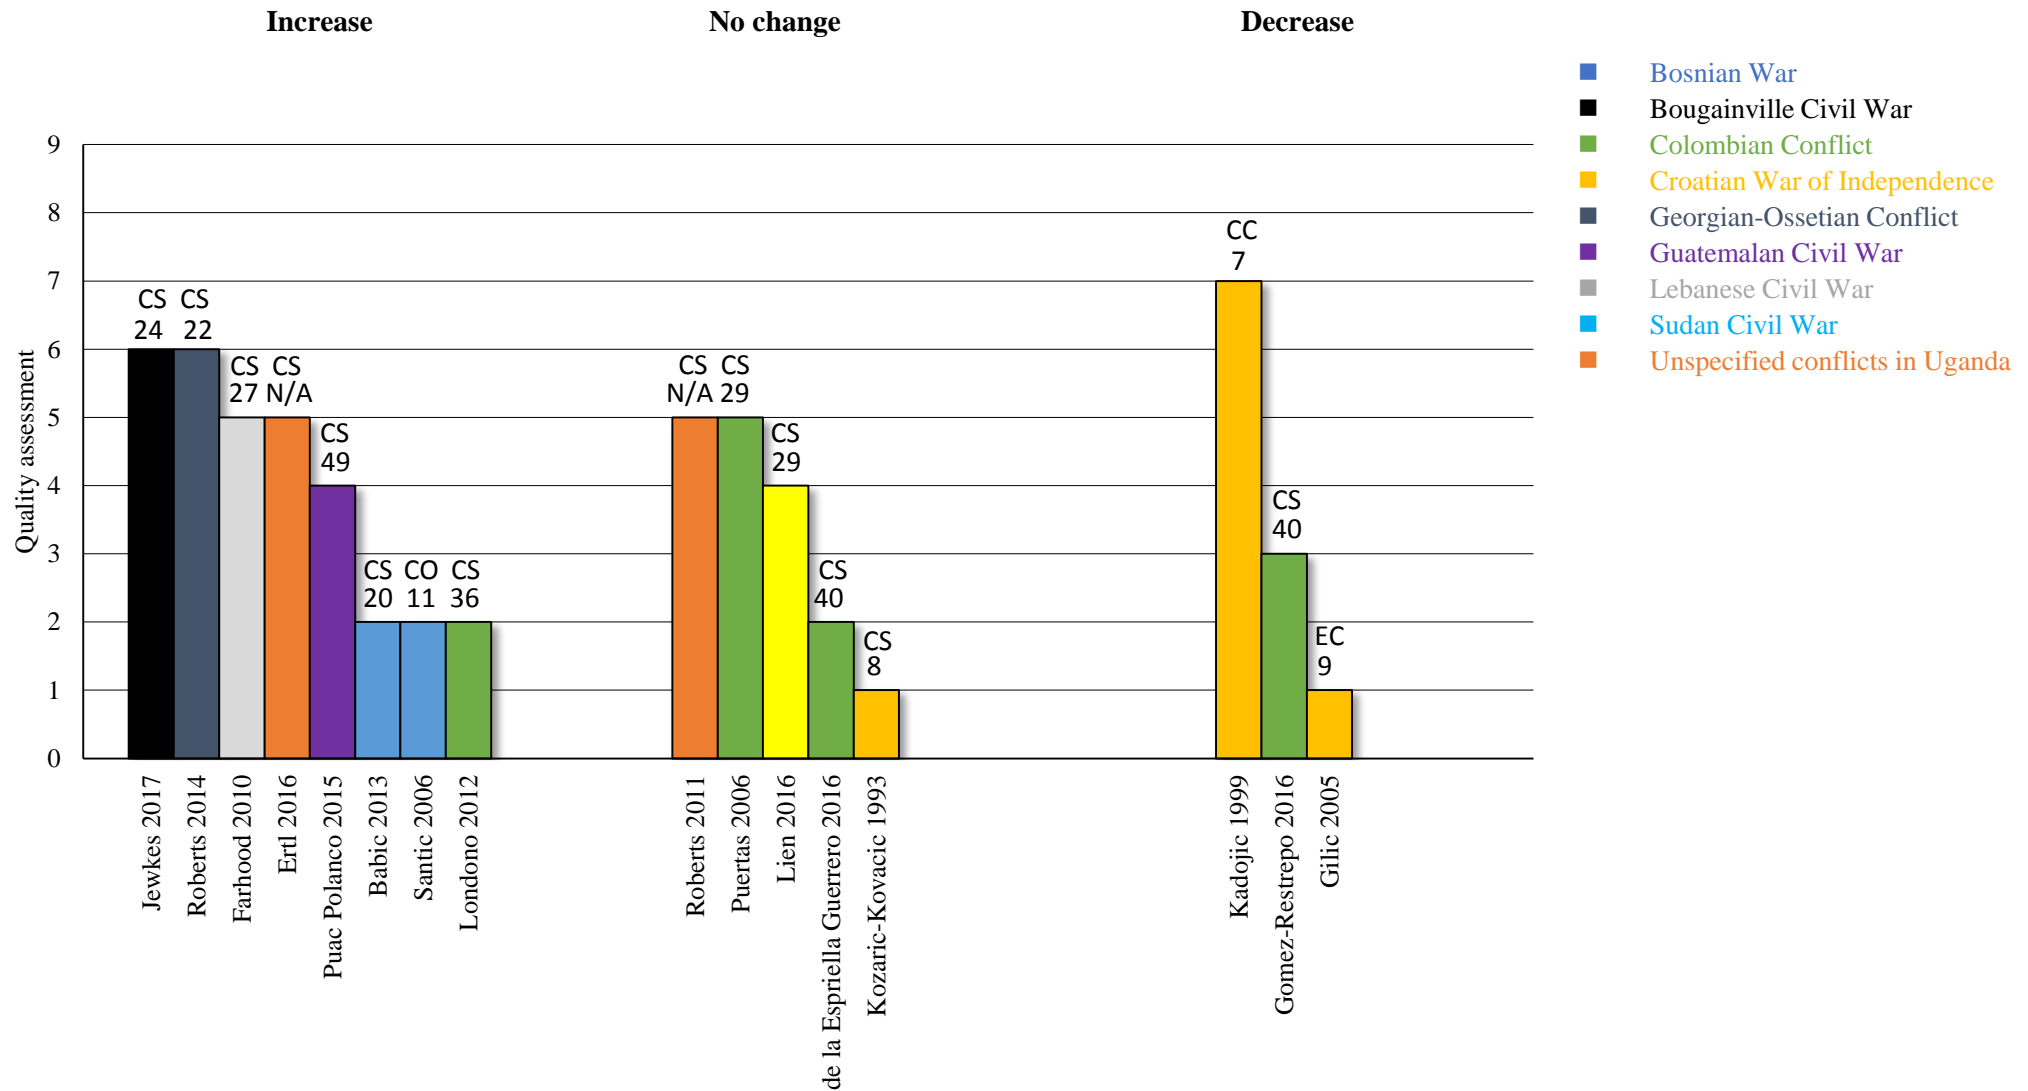

**Supplementary Figure 18.** The impact of armed conflict on body mass index

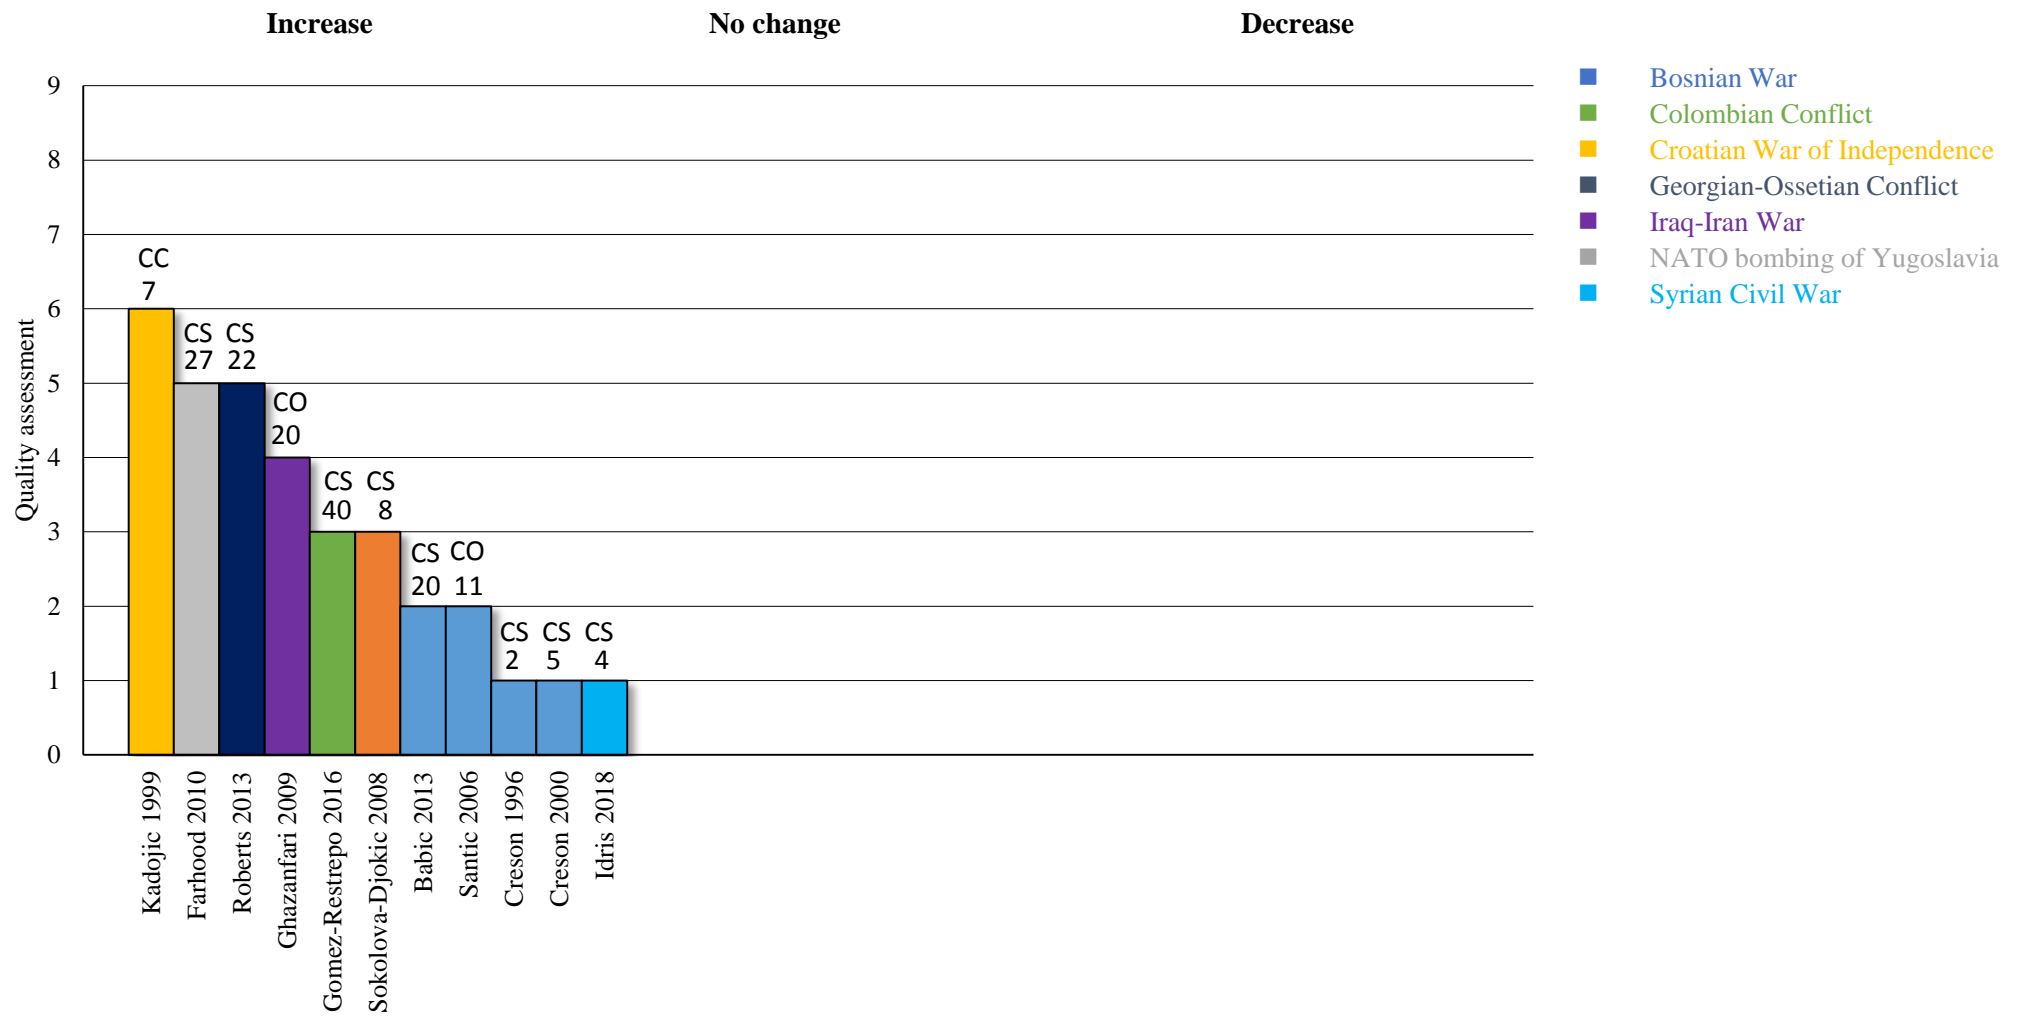

**Supplementary Figure 19.** The impact of armed conflict on overweight

**Supplementary Figure 20.** The impact of armed conflict on obesity

**Supplementary Figure 21.** The impact of armed conflict on alcohol use

**Supplementary Figure 22.** The impact of armed conflict on tobacco use
