

Supplementary File 2.

Figure 2. Funnel plots of the odds ratios for cardiovascular disease (A), hypertension (B), and cardiac injury (C) and risk of in-hospital mortality in COVID-19.

(A)

(B)

(C)

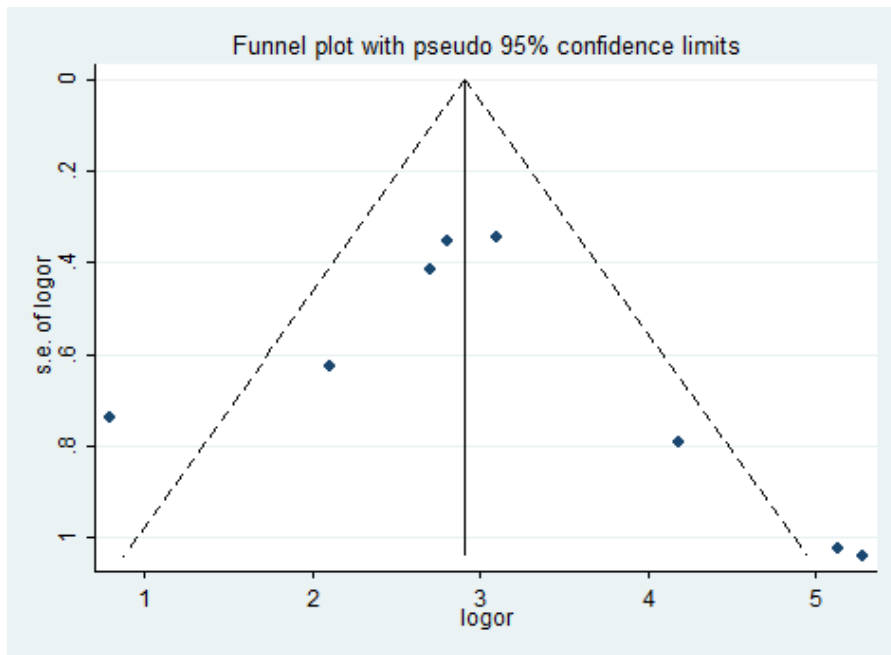

Table 2. Publication bias tested by Egger's test and Begg's test.

	Egger's test	Begg's test
	P value	P value
Cardiovascular disease	0.990	0.771
Hypertension	0.661	0.764
Cardiac injury	0.386	0.443
