Contents

Heartbeat
315 Heartbeat: can machine learning improve outcomes in patients with heart failure with preserved ejection fraction? C M Ons

Editorials
318 Machine learning: a long way from implementation in cardiovascular disease S Chen, A Banerjee
321 NOAC dosing and monitoring: really as simple as it seems? X Yao, P Noseworthy
323 Focusing on prehospital care to improve ST elevation myocardial infarction care M S Marcolino, A L Ribeiro

Reviews
325 Lifestyle modifications for treatment of atrial fibrillation M E Middeldorp, J Ariyasatnam, D Lau, P Sanders

Heart failure and cardiomyopathies
350 Influenza vaccination in patients with heart failure: a systematic review and meta-analysis of observational studies B S Rodrigues, C David, J Costa, J J Ferreira, F J Pinto, D Caldeira

Arrhythmias and sudden death
358 Decline in renal function and oral anticoagulation dose reduction among patients with atrial fibrillation T Inohara, DJ N Holmes, K Pieper, R G Blanco, L A Allen, G C Forfocr, B J Gersh, E M Hyleck, M D Ezekowitz, P R Kovac, J A Reffel, G V Naccarelli, P S Chan, K W Muhaffy, D E Singer, J V Freeman, B A Steinberg, E D Peterson, J P Piccini, on behalf of the ORBIT AF Patients and Investigators

Healthcare delivery, economics and global health
365 Emergency medical service delays in ST-elevation myocardial infarction: a meta-analysis A Afkazwadeh, Z Nehme, B Williams, D Stub
374 Impact of a community-based cardiovascular disease service intervention in a highly deprived area J Downing, T C Rose, P Saini, B Matata, Z McIntosh, T Comerford, K Wilson, A Pemberton, L M Harper, M Shaw, K Daras, B Barr

Special populations

Education in Heart
387 Angina: contemporary diagnosis and management T J Ford, C Berry

Cardiology in focus
399 Artificial intelligence and the cardiologist: what you need to know for 2020 A de Marvao, T JW Dawes, J P Howard, D P O’Regan

Image challenge
386 Seventy-one-year-old man with transient left bundle branch block A J Moss, A Jordan, J-P Carpenter
