BSCMR Young Investigators Award 2021

The BSCMR is eager to encourage young researchers working on all aspects of research related to CMR. As part of this initiative, the Society hosted its Young Investigators Session during the 16th Annual Meeting which was held at the Royal College of Physicians, London on the 12th October 2021.

Young researchers were invited to submit a short (350 word) abstract of their research. Clinicians studying for postgraduate qualifications (MD, PhD, or equivalent) were encouraged to take part and researchers with up to two year’s postdoctoral experience were also eligible. Abstracts covering all areas of research related to CMR, including work at an early stage, was considered.
