Erratum

The article, *The early detection of congenital malformations*, by H. Watson, which appeared in the January issue of this journal (vol. 34, pages 37-40), contains a fairly major error. Page 38, lines 39-40, left-hand column, should read—'had almost 4 times this number, 27.5/1000, in 1334 stillbirths'.

Copyright.
