*Editor* K. Shirley Smith  
*Assistant Editor* Walter Somerville  
*Associate Editor* Dennis Deuchar

Electrocardiographic abnormalities and some laboratory findings in patients with subarachnoid haemorrhage *A. Eisalo, J. Peräsalo, and P. Halonen* 217

Transient systolic hypertension after aortic valve replacement *M. J. McQueen, M. E. Watson, and W. H. Bain* 227

Serum peptidases in myocardial infarction *Andrzej Szczeklik, Apolinary Szewczuk, Halina Howosad, and Barbara Kofaczowska* 232

Leucocyte ascorbic acid levels after acute myocardial infarction *R. Hume, E. Weyers, T. Rowan, D. S. Reid, and W. S. Hillis* 238

Respiratory and circulatory effects of pentazocine. Review of analgesics used after myocardial infarction *R. E. Nagle and J. Pilcher* 244

Effects of a beta-adrenergic receptor blocker in myocardial infarction treated for one year from onset *J. L. Reynolds and R. M. L. Whitlock* 252

Clinical evaluation of acute

Systemic lupus erythematosus during treatment with procainamide *E. T. Swarbrick and Ian R. Gray* 284

Racial incidence of coarctation of aorta *R. L. van der Horst and M. S. Gotsman* 289

Abnormalities of atrial depolarization in infradiaphragmatic inferior myocardial infarction *and M.* 5

Third heart sound after aortic valve replacement *E. J. Ep* 11

Note on heart block *M. Bai* 09

Interpretation of the electrocardiogram in myocardial infarction *J. J. Gaidula, R. L. Banner, G. I. Litman, and S. Goldstein* 312

Case Reports  
P wave triggered permanent atrial pacing in a case of transient sinus arrest *M. J. Stopczyk, R. J. Zochowski, and Z. Sadowski* 318

Ventricular septal defect and mitral regurgitation secondary to myocardial infarction *M. D. Rawlins, D. Mendel, and M. V. Braimbridge* 322
