TECHNICAL EDITOR Rita Carne

Notice to contributors

The *British Heart Journal* will publish papers relating to the heart and circulation. Manuscripts should be sent to the Editor, *British Heart Journal*, B.M.A. House, Tavistock Square, London WC1H 9JR. A stamped addressed postcard should be enclosed for return to author as acknowledgement of receipt of manuscript. Overseas authors should enclose international reply paid coupon. Submission of a manuscript will be held to imply that the work is original, that it has not been published elsewhere, and that if accepted it will not be published elsewhere in whole or in part without the Editor's permission.

Papers The manuscript should be typed on one side of the sheet only, in double spacing with margins of at least 4 cm. A second copy of the manuscript, tables, and figures should be sent for editorial use; this will not be returned to the author even if the paper is rejected. Papers should be concisely written and should contain an informative summary, embodying the methods, results, and conclusions. Titles of papers should be as brief as possible and should be typed on a separate sheet of paper together with authors' names, address of the department where the work was done, and a short title for the running heads. The same sheet of paper should list: (i) authors' present addresses if different from departments in which the work was done, and (ii) name and address of the author to whom correspondence and proofs should be sent. Generally recognized abbreviations only should be used and these as sparingly as possible; if it is desired to use unusual abbreviations to avoid frequent repetition of complex designations then these must be clearly identified. Suitable acknowledgement of financial support or assistance may be made but should not be extended to include those whose contribution consisted only of the performance of the normal duties for which they were employed.

SI units The units in which the authors' work was measured should be cited first followed by either the SI units or the traditional units. This does not apply to Tables, but here a conversion factor should be added as a footnote.

Case reports These are intended only briefly to convey the essential facts of a case, and discussion and bibliography should be kept to a minimum. These papers should have no more than 3 authors, should not exceed 1500 words, and should contain no more than 2 Figures.

Tables (see also SI units above) These must be typed on separate sheets and not in the text. They should be numbered with Arabic numerals and should have a title. Authors must ensure that the column headings are clear without having to resort to lengthy explanatory footnotes.

Illustrations These should be identified on the back with Figure number of Arabic numerals, title of paper, and name of author. The legends should be typed on a separate sheet of paper. The Figures should be on glossy paper and unmounted unless several are grouped together in a composite Figure, as in montage. Any

lettering to be inserted should be indicated lightly in pencil on a transparent overlay. Diagrams, charts, and line drawings should be drawn in India ink. *Electrocardiograms, etc.* Only black and white electrocardiograms make satisfactory blocks, and if the originals are sent they should be protected by a covering of transparent paper. If several electrocardiograms are grouped in a single Figure, only a few complexes should be shown, and the width should not exceed 5½ inches unless a reduction in scale is feasible. Authors submitting x-ray pictures with their manuscripts are asked to ensure that they conform to the standards set out in the Editorial in the Journal, vol. 35, page 1101.

References In the text these should follow the Harvard system, i.e. name followed by date: Sutton (1966). Up to two names should be cited in full at first mention: Cooper and Sturridge (1976); more than 2 authors should always be cited with the first author followed by *et al.* Where more than one reference is cited to substantiate a statement the references should be given in date order. The list of references should be typed alphabetically on a separate sheet, and should appear as follows: Sutton, G., Harris, A., and Leatham, A. (1968). Second heart sound in pulmonary hypertension. *British Heart Journal*, 30, 743-756. Books should be cited as follows: Hudson, R. E. B. (1965). *Cardiovascular Pathology*. Edward Arnold, London.

Proofs and reprints A proof, which will be sent to the author named on the covering title page, should be read carefully, corrected, and returned within 7 days of receipt. Corrections other than printer's errors may be charged to the author. Twenty-five reprints of each paper are supplied free; additional reprints can be ordered at the time of returning the proof.

Notice to subscribers

The annual subscription rate is £24.00 in the United Kingdom and the Republic of Ireland, and US\$65.50 by surface mail in all countries overseas. Payment for overseas subscriptions should be made in dollars to the British Medical Association. The combined rate to *British Heart Journal* and *Cardiovascular Research* (published in six issues) is £38.00, and US\$104.50 in all countries overseas.

Orders can also be placed locally with any leading subscription agent or bookseller.

(For the convenience of readers in the USA, subscription orders with or without payment, can also be sent to: BRITISH MEDICAL JOURNAL, 1172 Commonwealth Avenue, Boston, Mass., 02134. All inquiries, however, must be addressed to the Publisher in London.) All inquiries regarding Air Mail rates and single copies already published should be addressed to the Publisher in London.
