

INDEX OF AUTHORS

A

Arriens, R. T. H. (and I. Pines and A. Sanabria): Mercurial diuretics: The addition of magnesium sulphate to prevent toxic effects. 197.

B

Bain, C. W. Curtis: Incomplete bundle branch block. 139.
Barrett, A. M. (and Leslie Cole): A case of tuberculous pericarditis. 185.
Bramwell, Crighton (and A. Morgan Jones): Acute left auricular failure. 129.
Braun, K. (and L. E. Schindel): The place of foliandrin within the group of cardiac glucosides. 149.
Brown, James W. (and Frank Hampson): Temporal arteritis. 154.

C

Campbell, Maurice: Complete heart block. 69.
—: Frederick John Poynton. 96.
Cole, Leslie (and A. M. Barrett): A case of tuberculous pericarditis. 185.

D

Daniel, G. H.: Social and economic conditions and the incidence of rheumatic heart disease. 103.
Dawson, G. D. (and A. Morgan Jones): Synchronous heart sound recording. 48.
Duras, Paul F.: Heart block with aneurysm of the aortic sinus. 61.

E

Evans, William: The heart in myotonia atrophica. 41.
—: The unity of paroxysmal tachycardia and auricular flutter. 221.

F

Forbes, G. W. (and J. S. Lawrence): Paroxysmal heart block and ventricular standstill. 53.

H

Hampson, Frank (and James W. Brown): Temporal arteritis. 154.
Holford, J. M.: Unusual electrocardiogram in dextrocardia. 105.
Howell, Trevor H.: Heart failure in the aged. 20.
Hume, William E. (and P. Szekely): Cardiac involvement in spirochaetal jaundice. 135.

J

Jones, A. Morgan (and Crighton Bramwell): Acute left auricular failure. 129.
— (and G. D. Dawson): Synchronous heart sound recording. 48.

K

Katz, L. N. (R. Langendorf, and A. J. Simon): Reciprocal beating initiated by ventricular premature systoles. 13.

L

Langendorf, R. (L. N. Katz, and A. J. Simon): Reciprocal beating initiated by ventricular premature systoles. 13.
Lawrence, J. S. (and G. W. Forbes): Paroxysmal heart block and ventricular standstill. 53.
Lewes, David: Pulmonary embolism: The clinical and cardiographic progress of a case. 161.
Lowe, T. E. (and W. B. Wartman): Myocardial infarction. 115 and 183.

M

Mackeith, Ronald: Adrenal-sympathetic syndrome. 1.
Macleod, Alastair: Cardio-aortic fistula. 194.
McMichael, John (and E. P. Sharpey-Schafer): Cardiac output in man by a direct Fick method. 33.
Miller, R.: Auriculo-ventricular rhythm. 107.

P

- Pines, Ignacy (and A. Sanabria and R. T. H. Arriens): Mercurial diuretics: The addition of magnesium sulphate to prevent toxic effects. 197.
Prescott, Frederick: Clinical evaluation of the pressor activity of methedrine, neo-synephrine, paredrine, and pholedrine. 214.

S

- Sanabria, A. (and I. Pines and R. T. H. Arriens): Mercurial diuretic: The addition of magnesium sulphate to prevent toxic effects. 197.
Saracoglu, K.: A rare case of heart block. 93.
Schindel, L. E. (and K. Braun): The place of foliandrin within the group of cardiac glucosides. 149.
Schott, A.: Circulatory failure due to vitamin B deficiency. 27.
Sharpey-Schafer, E. P. (and John McMichael): Cardiac output in man by a direct Fick method. 39.
Simon, A. J. (R. Langendorf, and L. N. Katz): Reciprocal beating initiated by ventricular premature systoles. 13.
Smirk, F. H.: Casual and basal blood pressures. IV. Their relationship to the supplement pressure with a note on statistical implications. 176.
Stern, V. S.: Stokes-Adams attacks in a child. 66.
Stokes, Wilfred: Nicotinic acid in the treatment of angina pectoris. 157.
Sunderland, Sydney (and R. J. Wright-Smith): Congenital pericardial defects. 167.
Szekely, P. (and William E. Hume): Cardiac involvement in spirochetal jaundice. 135.
—, Chest leads for the demonstration of auricular activity. 238.

T

- Thompson, R. B.: Myxoma of the left auricle. 23.

W

- Wartman, W. B. (and T. E. Lowe): Myocardial infarction. 115 and 183.
Wood, Anne M.: Perforation of the interventricular septum due to cardiac infarction. 191.
Wright-Smith, R. J. (and S. Sunderland): Congenital pericardial defects. 167.

INDEX OF SUBJECTS

A

- Acute left auricular failure (Crighton Bramwell and A. Morgan Jones). 129
Adrenal-sympathetic syndrome (Ronald Mackeith). 1.
Aneurysm of aortic sinus, heart block with (P. F. Duras). 61.
Angina pectoris, nicotinic acid in the treatment of (Wilfred Stokes). 157.
Aortic sinus, aneurysm of, with heart block (P. F. Duras). 61.
Arteritis, temporal (James W. Brown and F. Hampson). 154.
Auricular failure, acute left (Crighton Bramwell and A. Morgan Jones). 129.
Auricular flutter and paroxysmal tachycardia, the unity of (William Evans). 221.
Auriculo-ventricular rhythm (R. Miller). 107.

B

- British Paediatric Association: Report on the care of rheumatic children. 99.
Bundle branch block, incomplete (C. W. Curtis Bain). 139.

C

- Cardiac involvement in spirochaetal jaundice (William E. Hume). 135.
Cardiac output in man by a direct Fick method (John McMichael and E. P. Sharpey-Schafer). 33.
Cardiac Society of Great Britain and Ireland, Proceedings of. 247.
Cardiac Society: Report on the care of rheumatic children. 99.
Cardio-aortic fistula (Alastair Macleod). 194.
Casual and basal blood pressures. IV. Their relationship to the supplemental pressure with a note on statistical implications (F. H. Smirk). 176.
Chest leads for the demonstration of auricular activity (P. Szekely). 238.
Circulatory failure due to vitamin B deficiency (A. Schott). 27.
Clinical evaluation of the pressor activity of methedrine, neo-synephrine, paredrine, and pholedrine (Frederick Prescott). 214.
Complete heart block (Maurice Campbell). 69.
Congenital pericardial defects (Sydney Sunderland and R. J. Wright-Smith). 167.

D

- Dextrocardia, unusual electrocardiogram in (J. M. Holford). 105.

E

- Embolism, pulmonary, the progress of a case (David Lewes). 161.

F

- Foliandrin, the place of, within the group of cardiac glucosides (L. E. Schindel and K. Braun). 149.

H

- Heart block with aneurysm of the aortic sinus (Paul F. Duras). 61.
Heart block, complete (Maurice Campbell). 69.
Heart block, a rare case of (K. Saracoglu). 93.
Heart block, paroxysmal, and ventricular standstill (J. S. Lawrence and G. W. Forbes). 53.
Heart failure in the aged (Trevor Howell). 20.
Heart in myotonia atrophica (William Evans). 41.
Heart sound recording, synchronous (G. D. Dawson and A. Morgan Jones). 48.

I

- Incomplete bundle branch block (C. W. Curtis Bain). 139.
Infarction, myocardial (T. E. Lowe and W. B. Wartman). 115 and 183.

J

- Jaundice, cardiac involvement in spirochaetal (W. E. Hume and P. Szekely). 135.

M

- Mercurial diuretics: the addition of magnesium sulphate to prevent the toxic effects of their intravenous administration (Ignacy Pines, Antonio Sanabria, and R. T. Hernandez Arriens). 197
 Myocardial infarction (T. E. Lowe and W. B. Wartman). 115 and 183.
 Myotonia atrophica, the heart in (William Evans). 41.
 Myxoma of the left auricle (R. B. Thompson). 23.

N

- Nicotinic acid in the treatment of angina pectoris (Wilfred Stokes). 157.
 Nodal (auriculo-ventricular) rhythm (R. Miller). 107.

O

- Old age, heart failure in (T. H. Howell). 20.

P

- Paroxysmal heart block and ventricular standstill (J. S. Lawrence and G. W. Forbes). 53.
 Paroxysmal tachycardia and auricular flutter, the unity of (William Evans). 221.
 Perforation of the interventricular septum due to cardiac infarction (Anne M. Wood). 191.
 Pericarditis, tuberculous (A. M. Barrett and Leslie Cole). 185.
 Poynton, Frederick John (Maurice Campbell). 96.
 Proceedings of the Cardiac Society of Great Britain and Ireland. 247.
 Pulmonary embolism: The clinical and cardiographic progress of a case (David Lewes). 161.

R

- Reciprocal beating initiated by ventricular premature systoles (R. Langendorf, L. N. Katz, and A. J. Simon). 13-
 Report : The care of rheumatic children. 99.
 Rheumatic children, the care of (Report). 99.
 Rheumatic heart disease, social and economic conditions and the incidence of (G. H. Daniel). 103.

S

- Social and economic conditions and the incidence of rheumatic heart (G. H. Daniel). 103.
 Stokes-Adams attacks in a child (V. S. Stern). 66.
 Synchronous heart sound recording (G. D. Dawson and A. Morgan Jones). 48.

T

- Temporal arteritis (James W. Brown and Frank Hampson). 154.
 The care of rheumatic children (Report). 99.
 The unity of paroxysmal tachycardia and auricular flutter (William Evans). 221.
 Tuberculous pericarditis (A. M. Barrett and Leslie Cole). 185.

U

- Unusual electrocardiogram in dextrocardia (J. M. Holford). 105.

V

- Ventricular standstill and paroxysmal heart block (J. S. Lawrence and G. W. Forbes). 53.
 Vitamin B deficiency, circulatory failure due to (A. Schott). 27.
