# The right diagnosis down to a

©

Troponin T is a unique biochemical marker for the diagnosis of myocardial damage due to its high level of sensitivity, specificity and large diagnostic time window.

Multicentre studies covering patients at more than 80 cardiac centres confirm that troponin T not only diagnoses patients with large size infarcts, it is also capable of differentiating minor myocardial damage in unstable angina patients. A truly major advancement in cardiac patient care.

## TROPONIN T Heart Diagnosis System

# REFLECTING QUALITY WORLDWIDE

Relied upon by leading surgeons, Swann-Morton blades are as worldwide as their reputation for quality.

Alongside their classic surgical range, there are the "Major" orthopaedic blades, "Minor" disposables, and special blades for cervical biopsy and myringotomy. Most recent is the completely new "Fine" range.

Extensively researched, all blades are produced under strict quality control by precise automation, and inspected at every stage.

Swann-Morton always have the blade for the task, uniformly correct in shape, size and weight, and durably sharp – that's why they are famous worldwide!
