Contents

Volume 99 Issue 11 | HEART 1 June 2013

Editorials

753 Cardiac rehabilitation and exercise training R R West, A H Henderson

755 Economical selection of syncope patients for permanent cardiac pacing: a tilted view B P Grubb, K Kanjwal

757 Evaluating new diagnostic and prognostic biomarkers in cardiovascular disease P O Collinson

Review

759 The role of uric acid in the pathogenesis of human cardiovascular disease M Kanbay, M Segal, B Afsar, D-H Kang, B Rodriguez-Iturbe, R J Johnson

Original articles

Acute coronary syndromes

767 Medication, reperfusion therapy and survival in a community-based setting of hospitalised myocardial infarction E C O'Brien, K M Rose, C M Suchindran, T Stiirmer, P P Chang, L Chambliss, C S Guild, W D Rosamond

774 Left bundle branch block with acute thrombotic occlusion is associated with increased myocardial jeopardy score and poor clinical outcomes in primary percutaneous coronary intervention activations A J Brown, S P Hoole, L M McCormick, M Malone-Lee, P J Cacciottolo, P M Schofield, N E J West

Interventional cardiology

779 Quality of life following percutaneous coronary interventions in octogenarians: a systematic review C Johnman, D F Mackay, K G Oldroyd, J P Pell

Secondary prevention of coronary disease

785 Cardiorespiratory fitness changes in patients receiving comprehensive outpatient cardiac rehabilitation in the UK: a multicentre study G R H Sandercock, F Cardoso, M Almodhy, G Pepera

Coronary artery disease

791 Endothelial progenitor cells, atheroma burden and clinical outcome in patients with coronary artery disease G J Padfield, O Tura-Ceide, E Freyer, G R Barclay, M Turner, D E Newby, N L Mills

Heart rhythm disorders

799 Clinical outcomes in patients with implantable cardioverter defibrillators and Sprint Fidelis leads R Verlato, D Facchin, D Catanzariti, G Molon, G Zanoato, G Morani, M Brieda, F Zanon, P Delise, L Leoni, J Comisso, C Campo

805 Tilt testing is more cost-effective than implantable loop recorder monitoring as a means of directing pacing therapy in people with recurrent episodes of suspected vasovagal syncope that affect their quality of life or present a high risk of injury S Davis, M Westby, S Petkar, D Pitcher

Education in Heart

811 Three dimensional echocardiography for quantification of valvular heart disease J L Zamorano, A Gonçalves
